WomenCertified Inc., home of the Women's Choice Award and partner to hundreds of hospitals and healthcare facilities, now identifies the Best Doctors across America based on numerous points of objective criteria such as certifications and affiliations, minimum years of experience, medical license and medical background checks, and a unique and stringent process of analyzing patient reviews from across numerous publicly available sources that would yield a minimum of a 4.2 patient satisfaction rating.

Dr. Ruthann Rees has earned the 2023 Women's Choice Award Best Doctors designation demonstrating a strong commitment to patients. Dr. Rees strives to enhance her patient's quality of life, providing individualized care for optimal results. Dr. Rees' special areas of interest outside obstetrics include minimally invasive surgery, urogynecology, and pelvic reconstructive surgery for women with pelvic support disorders.

Delia Passi, Founder of the Women's Choice Award and leading consumer advocate for women, says, "Women carry the burden of finding the best doctors for her and her family. We have helped millions of women find the Best Hospitals, Mammogram Centers, Breast Centers, and Nursing Homes for a dozen years, and it's time we help her find the Best Doctors".

Earning the Women's Choice Award is particularly challenging as it entails meeting specific criteria points as indicated in a national survey by women across America. And as research

We provide the best possible care in the most personal setting while treating every patient with dignity and respect."

Dr. Ruthann Rees

shows, women are the chief healthcare officers of the household and have the highest expectations of their providers- as they should.
