The gluconate salt of calcium is called calcium gluconate, or Ca^{2+} . The mineral calcium is essential for healthy neuron, muscular, and heart functions. Therefore, calcium gluconate or calcium gluconate salt is given orally or through injectables if the body is deficient in it. The consequences of hypocalcemia, such as osteoporosis or rickets, are treated with calcium gluconate. The chemical formula for calcium gluconate is $\text{C}_{12}\text{H}_{22}\text{CaO}_{14}$ and its molecular weight is 430.373 g/mol.

Calcium gluconate is also referred to as Calcium D-gluconate and is produced from glucose through the process of fermentation.

The top exporters of calcium gluconate are India, China, France, the Netherlands, the United States, and Germany.

Key Details About the [Calcium Gluconate Price](#) Trend:

Procurement Resource does an in-depth analysis of the price trend to bring forth the monthly, quarterly, half-yearly, and yearly information on the Calcium Gluconate price in its latest pricing dashboard. The detailed assessment deeply explores the facts about the product, price change over the weeks, months, and years, key players, industrial uses, and drivers propelling the market and price trends.

Each price record is linked to an easy-to-use graphing device dated back to 2014, which offers a series of functionalities; customization of price currencies and units and downloading of price information as excel files that can be used offline.

The Calcium Gluconate price chart, pricing database, and analysis can prove valuable for procurement managers, directors, and decision-makers to build up their strongly backed-up strategic insights to attain progress and profitability in the business.

Industrial Uses Impacting Calcium Gluconate Price Trend:

The major Industrial uses of Calcium Gluconate that are impacting the price trend are as a source of calcium in veterinary and nutraceutical applications, and chemical and construction industries. Calcium gluconate is also employed in the production of cement, aluminum, textiles, and sewage treatment plants.

Key Players:

Noah Technologies Corporation
Alfa Aesar

Akzo Nobel N.V.
Spectrum Chemical Manufacturing Corp.
Westco Chemicals Inc.

News and Events:

April 27, 2022: According to an announcement made by Fresenius Kabi, the business has launched two new formulations of calcium gluconate in sodium chloride injection in the United States.
