Medical Glass Tubes Market

The medical glass tube market is an industry that manufactures and distributes glass tubes specifically designed for medical uses. These tubes can be employed in various medical procedures such as blood collection, storage, transportation, drug delivery systems, and diagnostic testing to name a few.

The market for glass tubes is segmented according to type, size, and application. Borosilicate glass is often used in medical applications due to its resistance to thermal shock and chemical corrosion. Glass tubes come in various sizes from small capillary tubes for blood collection to larger containers used for storing or transporting larger volumes of liquid.
