###

Since 2003, Wounded Warrior Project® (WWP) has been meeting the growing needs of warriors, their families, and caregivers — helping them achieve their highest ambition. WWP began in 2003 as a small, grassroots effort providing simple care and comfort items to the hospital bedsides of the first wounded service members returning home from the conflicts in Iraq and Afghanistan. As their post-service needs evolved, so have our programs and services. Today, through our direct programs in mental health, career counseling, and long-term rehabilitative care, along with our advocacy efforts, we improve the lives of millions of warriors and their

families. For more information, visit <https://www.woundedwarriorproject.org/>.
