

USA Clinics Group Recognizes National Doctors Day

Social Media Campaign Highlights Patients' Testimonials

NORTHBROOK, IL, UNITED STATES, March 30, 2023 /EINPresswire.com/ -- USA Clinics Group, a national network of minimally invasive clinics, is paying tribute to its physicians for their service, skills and compassion by asking their patients to "Thank A Doctor" on its social media platforms.

"Our commitment to providing personalized and top health care is just as strong as the commitment, quality and integrity of our staff," said Yan Katsnelson, M.D., Founder and CEO of USA Clinics Group. "Our team of experienced medical professionals strives to maintain the highest excellence in patient care. We provide exceptional patient care through our doctors' experience, dedication, and compassion."

Leaving a special comment, personal video or even a quick note is a wonderful way to show your appreciation for our doctors, their team and our clinics."

About USA Clinics Group

USA Clinics Group is the parent company of USA Vein Clinics, USA Fibroid Centers, and USA Vascular Centers, with more than 168 accredited clinics in 28 states.

USA Vein Clinics' team of experienced vein physicians offers over seven minimally invasive varicose and spider veins treatments that meet individual patients' needs, including endovenous laser therapy, Clarivein[®], and sclerotherapy treatments.

USA Fibroid Centers provide a non-surgical approach for fibroids using an advanced FDA-approved treatment called Uterine Fibroid Embolization (UFE). Performed by the USA Fibroid Centers interventional radiologists, UFE offers a low-risk, outpatient treatment that enables women to quickly resume their everyday activities while preserving fertility—without surgery.

USA Vascular Centers are dedicated to the minimally invasive, non-surgical treatment of Peripheral Artery Disease

(PAD). At USA Vascular Centers, highly trained vascular specialists help improve our patients' lives, reducing their symptoms and preventing the progression of PAD without requiring a
