Album release: Ed Gumbrecht's Enter the Muses

Today, [Enter the Muses](#) officially drops as the spring holiday weekend gets underway. The album follows last year's Colorshow with a fresh take on traditional rock/folk/[songwriter](#)-style music. Muses explores the sources of inspiration and connection in modern life. It is a broadly optimistic collection. Gumbrecht's signature features - bright guitars, country/southern-rock arrangements, animated storytelling - are abundant. He sings with a confident and engaging voice. His poetic lyrics bear repeated listening. Here are stories about summer car trips, the whims of luck, backyard parties, and tumbling road races. The songs relate to and enhance each other underscoring the idea that muses are present and constantly shaping our experience.

Eight original songs are performed by Gumbrecht and the talented team that delivered his debut

album. Collaborators include the velvet-voiced Claire Marie, musician/producer Eric Michael Lichter, and sound engineer Guido Falivene. The ensemble handles the range of moods and styles in a relaxed, sometimes improvised manner. They infuse Gumbrecht's songs with easy-going charm and warmth.

Gumbrecht, a native New Yorker, was raised in the album-rock era. His music recalls Paul Simon, James Taylor, Bruce Springsteen, the Eagles and CSNY with a modern vitality. Ed initially performed in NY bands and theater before leaving the arts for a traditional career. He continued writing - penning songs daily as well as authoring novels, short stories and screenplays. With the 2022 release of Colorshow, Ed returned to musical performance. Enter the Muses is his second album release in 14 months. A third project is underway for late 2023 release.

Today, Gumbrecht's albums stream beyond genre and geographic boundaries. World Indie Generation calls his music "Emotional, lyrical, touching. A complete delight." As Enter the Muses pours into the world this week, it promises to become a bright highlight in the soundtrack of 2023.

Enter the Muses is now available through all major music outlets and streams. A portion of album proceeds are donated to marine conservation organisations throughout the US.

Add these classic songs to your playlists and share them with friends who appreciate fine music.
