

The Nurse Florence® Children's Book Series is making medical terminology accessible to kids

Michael Dow, RN, MS, MHA, MSM receives international recognition through the INDEPENDENT PRESS AWARD® for his work: the Nurse Florence® children's book series.

BROOKLYN, NY, UNITED STATES, April 5, 2023 /EINPresswire.com/ -- How do you make the word Polymicrogyria less intimidating and understandable? Michael Dow, RN, MS, MHA, MSM, a nurse himself, feels sometimes only a nurse can bridge the gap from technical medical information to a level of understanding that any ordinary person can grasp. The importance of Dow's work is that the [Nurse Florence®](#) book series provides high quality

medical information in an easy to understand format. By introducing young kids to correct terminology and science concepts at an early age, Dow feels we can help increase our children's health literacy level as well as help to prepare them for courses and jobs in Science, Technology, Engineering, and Math. For this reason, the [INDEPENDENT PRESS AWARD](#) recognized the Nurse Florence® Educational Series by Michael Dow, RN, MS, MHA, MSM in the category of Children's Educational Series as the 2023 winner.
