

The Spa Butler Partners With 360 Aesthetic Devices Offering The Cryo Lean 360™ Device

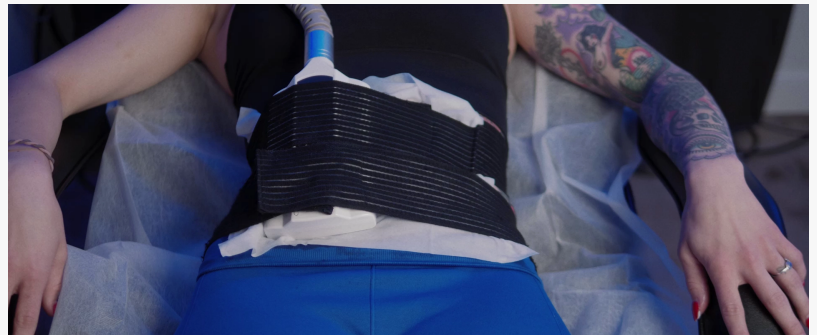

DALLAS, TX, USA, March 31, 2023

[/EINPresswire.com/](https://www.einpresswire.com/) -- The Spa Butler, a leading provider of med spa devices, is now offering [the Cryo Lean 360™](#) machine by 360 Aesthetic Devices. The Cryo Lean 360™ is a revolutionary new machine that uses cryotherapy to help users lose weight, improve circulation, and reduce cellulite.

“We are excited to offer the Cryo Lean 360™ to our clients,” said Tyler Slater, CEO of The Spa Butler. “This machine is a great way to help people achieve their fitness goals without having to go to a gym or undergo any invasive procedures.”

The Cryo Lean 360™ is a professional med spa body contouring device that works by exposing parts of the body to extreme cold temperatures. This causes the body to go into a state of shock, which helps to break down fat and tighten the skin. The machine also helps to reduce cellulite by breaking down fat cells and stimulating the production of collagen through shockwave therapy.

“The Cryo Lean 360™ is a safe and effective way to lose weight and improve your overall health,” said Tyler Slater. “We are confident that our clients will be happy with the results.”

Cryo-Lean 360™ is the most exciting Fat Reduction and Body Toning device on the market.

Cryo Lean 360™ utilizes Fat Freezing and Pulse Shockwave to target fat cells, smooth skin and tone the body.

The Spa Butler offers a variety of [med spa equipment](#) including whole body cryotherapy machines, oxygen dome facial devices, laser hair removal equipment, and more. The company also offers a variety of [at-home wellness products](#) including skincare products, teeth whitening kits, and at home LED light therapy products.

Practitioner Review

"I purchased this device in mid February thinking that it was a new service to add onto our permanent make up business and it would take a while to build up. Wow was I wrong! KARLA and Mike came to train me on a Thursday and by one week later on Saturday I had already made over \$10,000. That is with no advertising on our platforms. Just simple posts on local sites on Facebook. To this day I still have not paid for any advertising for it and we paid our machine off within weeks of receiving it. This truly is a business in a box because people already know that fat freezing works. The EMS portion of this machine truly tones the muscles so much that that is its own service. I've never been so pleased with a purchase especially one this large. Customer service is also amazing as you can get in touch with anybody at any time and get answers. I highly highly recommend this for anyone who is interested in bringing in a new service into their salon. Or even starting a new business and feeling confident that it will succeed."
