

# Automotive Cybersecurity Market Size and Trends (2023-2028) | Industry Growth, Share & Forecast Report by IMARC Group

*Companies in the Automotive Cybersecurity Industry Are: Aptiv PLC, Capgemini SE, Continental AG, DENSO Corporation, GuardKnox, NXP Semiconductors N.V. and more.*

BROOKLYN, NY, USA, April 3, 2023 /EINPresswire.com/ -- The latest research study "Automotive Cybersecurity Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2023-2028" by IMARC Group, finds that the [global automotive cybersecurity market size](#) reached US\$ 2.61 Billion in 2022. Looking forward, IMARC Group expects the market to reach US\$ 8.11 Billion by 2028, exhibiting a growth rate (CAGR) of 20.25% during 2023-2028.

## Industry Outlook:

Automotive cybersecurity refers to the measures taken to protect vehicles and their components from cyber-attacks. As modern vehicles become more connected and autonomous, the risk of cyber-attacks increases, and automotive cybersecurity becomes a crucial aspect of vehicle design and manufacturing. These attacks can potentially compromise the safety and security of the vehicle, as well as the privacy of its occupants. Automotive cybersecurity measures include secure communication protocols, firewalls, intrusion detection systems, and regular software updates.

Automotive Cybersecurity Market Size and Trends by IMARC Group

## Driving Factors:

The increasing number of connected vehicles on the road represents one of the significant factors driving the market growth across the globe. In line with this, the rising risk of cyber-attacks, along with an increasing number of vehicles being equipped with internet connectivity and advanced technology are further boosting the growth of the market. The market is also driven by governments of several nations implementing stringent regulations and standards related to automotive cybersecurity to ensure the safety and security of connected vehicles. Other factors, such as the widespread adoption of autonomous vehicles, increasing awareness of cybersecurity risks, and rapid urbanization, coupled with the steadily expanding automotive industry are creating a positive outlook for the automotive cybersecurity market further across the globe.

## The Report Lists the Key Companies in the Automotive Cybersecurity Market:

The competitive landscape of the global market has been studied in the report with the detailed profiles of the key players operating in the market.

- Aptiv PLC
- Capgemini SE
- Continental AG
- DENSO Corporation
- GuardKnox
- HARMAN International (Samsung Electronics Co. Ltd.)
- Karamba Security Ltd.
- NXP Semiconductors N.V.
- Upstream Security Ltd.
- Vector Informatik GmbH

**Report Highlights:** The study provides extensive analysis of the automotive cybersecurity industry covering the market trends, investment opportunities, growth trends, statistics, and industry prospects. The report offers a comprehensive analysis of the industry, which comprises insights on market size, share, trends, analysis, growth, demand, statistics, and overview. The report also includes competitor and regional analysis, and contemporary advancements in the global market.

## Report Segmentation:

The report has segmented the market into the following categories:

### Breakup by Security Type:

- Application Security
- Wireless Network Security
- Endpoint Security

### Breakup by Form:

- In-Vehicle
- External Cloud Services

### Breakup by Vehicle Type:

- Passenger Car
- Commercial Vehicle
- Electric Vehicle

### Breakup by Application:

- ADAS and Safety
- Body Control and Comfort
- Infotainment
- Telematics
- Powertrain Systems
- Others

### Breakup by Region:

- North America
- Asia Pacific
- Europe
- Latin America
- Middle East and Africa

### List of Tables Automotive Cybersecurity Industry:

- Table 1: Market: Key Industry Highlights, 2022 & 2028
- Table 2: Market Forecast: Breakup by Security Type (in Million US\$), 2023-2028
- Table 3: Market Forecast: Breakup by Form (in Million US\$), 2023-2028
- Table 4: Market Forecast: Breakup by Vehicle Type (in Million US\$), 2023-2028
- Table 5: Market Forecast: Breakup by Application (in Million US\$), 2023-2028

- Table 6: Forecast: Breakup by Region (in Million US\$), 2023-2028
- Table 7: Market: Competitive Structure
- Table 8: Market: Key Players

#### Key Highlights of the Report:

- Market Performance (2017-2022)
- Market Outlook (2023-2028)
- Market Trends
- Market Drivers and Success Factors
- Impact of COVID-19
- Value Chain Analysis
- Comprehensive mapping of the competitive landscape

If you need specific information that is not currently within the scope of the report, we will provide it to you as a part of the customization.

[Automotive Diagnostic Scan Tools Market by](#) Offering Type (Diagnostic Hardware, Diagnostic Software, Diagnostic Services), Tool Type (DIY Diagnostic, OEMS Diagnostics, Professional Diagnostics), Propulsion Type (IC Engine Vehicles, Electric Vehicles), Vehicle Type (Passenger Vehicle, Commercial Vehicle), and Region 2023-2028

#### About Us

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

Our offerings include comprehensive market intelligence in the form of research reports, production cost reports, feasibility studies, and consulting services. Our team, which includes experienced researchers and analysts from various industries, is dedicated to providing high-quality data and insights to our clientele, ranging from small and medium businesses to Fortune 1000 corporations.

IMARC's information products include major market, scientific, economic and technological developments for business leaders in pharmaceutical, industrial, and high technology

organizations. Market forecasts and industry analysis for biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, nanotechnology and novel processing methods are at the top of the company's expertise.
