Moonbeams and Poetry

"This composition scuttles from there to here with unpronounceable spaces in between. I suggest you read it with a sense of youthful whimsy and curiosity," Author Staudenraus says.

This composition scuttles from there to here with unpronounceable spaces in between. "I suggest you read it with a sense of youthful whimsy and curiosity, and if these little ditties don't comport with your understanding of the universe, you may do what I sometimes do," Staudenraus continues.

When asked about how the title came about, he says: "When I wonder why, after applying noteworthy effort, some idea just still isn't where I can grasp it, I tilt my face toward the night sky, look upward and across, seeking an audience with a moonbeam, hoping the answer is contained somewhere within its sheet of radiance, waiting to be revealed."

Nicole Yurbaba of The US Review of Books writes, "Readers who are exploring poetry for the very first time will appreciate the easy initiation into verse that Staudenraus' writing and the vibrant imagery accompanying each poem offer. Thus, this engaging compilation of the author's work is

a fun read for poets and readers of all levels and experiences."

Staudenraus was born in Portland, Oregon in 1944, and has compiled this anthology since the early 1970's. He is currently retired/BA degree from Central Washington University/U.S. Army veteran/has four grandchildren.
