

MLM Medical Labs - Germany Completes Successful FDA Assessment

MÖNCHENGLADBACH, NC, GERMANY, April 4, 2023 /EINPresswire.com/ -- [MLM Medical Labs](#), a global leader in [central and specialty laboratory services](#), announced today the successful completion of a recent evaluation from the FDA in response to a Remote Regulatory Assessment (RRA). The RRA was triggered as part of the submission of data from two studies by MLM's clients to the agency for regulatory review and to ensure the

protection of the rights and welfare of subjects involved in FDA-regulated research. According to Nicole Jansen-Paland, Head of Quality Management for MLM Medical Labs -Germany, "MLM passed the assessment with flying colors without any objections or findings. MLM's proprietary systems provided easy access to all the detailed inquiries from the FDA and provided clear evidence of the testing data from several years prior."

“

MLM passed the assessment without any objections or findings. MLM's proprietary systems provided easy access to all the detailed inquiries from the FDA and provided clear evidence of the testing data.”

Nicole Jansen-Paland, Head of Quality Management - Germany

Additionally, MLM has also recently received notice of continued accreditation from the College of American Pathologists (CAP), the world's largest organization of board-certified pathologists and a leading provider of laboratory accreditation programs, for its laboratory facility in Mönchengladbach, Germany. This marks the fifth consecutive awarding of this elite accreditation.

“MLM Medical Labs is committed to delivering the highest quality, clinically-actionable information and data to our clients in the clinical trials industry,” said Dr. Stephan Voswinkel, Managing Director MLM Germany. “CAP accreditation is considered to be the most rigorous choice

for lab accreditation, often exceeding the standards of state and federal agencies, and we are honored to have continued to maintain this approval.”

About MLM Medical Labs

MLM Medical Labs is an international central laboratory with locations in Europe and North America. An international team of nearly 200 highly skilled and experienced employees supports over 300 clinical trials at any given time.
