The Small Business People's Choice Award was awarded to TORI Global, who were nominated by a number of clients in the Financial Services industry, for providing results-focused advisory services that improve operational efficiency and reduce operating costs.

Business Awards UK's Director, Dan Trindade, said "Following an incredible growth over the 2021 awards, we saw an impressive number of entrants from a variety of sectors. Judging was extremely difficult, and each and every finalist and winner is well deserved. These are the UK's most innovative, determined and hard working small businesses that are the backbone of the economy. Throughout the pandemic and beyond, these companies have shown their fortitude and dedication to both staff and customer alike. We are proud to be associated with all winners and finalists, and we are thankful they gave us the opportunity to spotlight their achievements."

Co-Director, Mark Byrne, also added, "Business Awards UK now has the opportunity to give back even more to the UK business community, thanks to the support of our entrants. We have extensive plans to roll out new award sectors, a business networking and community portal, and a raft of publicity packages for every winner and finalist. Our awards are unlike competitor programs, in that we focus on benefits we can provide to our entrants, rather than how much revenue we can make on awards ceremonies, trophies and sponsorship."
