Lernalot is known for providing top-notch educational resources, and by integrating ChatGPT on WhatsApp, they are taking a significant step towards empowering users with the ability to access information and assistance in real-time. ChatGPT can help users with a wide range of tasks, from answering questions and offering recommendations to providing tutoring in various subjects.

"We are thrilled to bring ChatGPT's remarkable capabilities to the fingertips of WhatsApp users around the globe," said Shaun Swartz, CEO of Lernalot. "By offering this service for free, we aim to break down barriers and provide everyone with access to cutting-edge AI technology, supporting our mission to create a more informed and connected world."

To access ChatGPT on WhatsApp, users simply need to add the ChatGPT contact +27784410688 to their WhatsApp contact list and begin messaging the AI assistant as they would any other contact. The service is available 24/7, ensuring that users can receive the help they need, whenever they need it.

With ChatGPT's integration into WhatsApp, Lernalot is demonstrating its commitment to transforming the way people interact with AI technology. The company's dedication to providing

free, accessible, and high-quality educational resources is evident in this latest endeavor.
