The screenshot shows a video conference interface for the World Council of Optometry. At the top, there is a large eye logo with a globe inside. Below the logo, the text 'WORLD COUNCIL OF OPTOMETRY' is displayed. The main video frame shows a woman speaking. To the right of the video, there is a bar chart titled 'Perceived effectiveness of management options'. The chart compares responses from six regions: Africa, Asia, Australia, Europe, North America, and South America. The y-axis represents 'Perceived Effectiveness [%]' from 0 to 70. The x-axis lists various management options. The Q&A panel on the right shows a list of questions and a button to contribute.
