

# Blockchain in Edge Computing Market Opportunities 2023-2030 | Amazon Web Services, Cisco Systems

*Blockchain in Edge Computing Market will witness a 49.3% CAGR, Top Key Players and Forecast to 2028*

PUNE, MAHARASHTRA, INDIA, April 5, 2023 /EINPresswire.com/ -- HTF Market Intelligence published a new research publication on [Blockchain in Edge Computing Market](#) Insights, to 2028" with 150+pages and enriched with self-explained Tables and charts in presentable format. In the Study you will find new evolving Trends, Drivers, Restraints, Opportunities generated by targeting market associated stakeholders. The growth of the

Blockchain in Edge Computing market was mainly driven by the increasing R&D spending across the world, however latest scenario and economic slowdown have changed complete market dynamics. Some of the key players profiled in the study are Amazon Web Services, Inc. (United States), Cisco Systems, Inc. (United States), Clearblade, Inc. (United States), Filament (United

According to HTF Market Intelligence, the Global Blockchain in Edge Computing market to

witness a CAGR of 49.3% during forecast period of 2023-2028. The market is segmented by Global Blockchain in Edge Computing Market Breakdown by Application (Smart Grids, Connected Cars, Industrial IoT, Smart Cities, Others) Type (On-Premises, Cloud-Based) by Component (Hardware, Software, Services). The Blockchain in Edge Computing market size is estimated to increase by USD 1376.1 Million at a CAGR of 49.3% from 2023 to 2028. The report includes historic market data from 2017 to 2022E. Currently, market value is pegged at USD 214.7 Million.

#### Definition:

Blockchain in edge computing refers to the integration of blockchain technology with edge computing architecture, where edge devices can store and process data in a decentralized manner using blockchain.

The titled segments and sub-section of the market are illuminated below:

The Study Explore the Product Types of Blockchain in Edge Computing Market: On-Premises, Cloud-Based

Key Applications/end-users of Blockchain in Edge Computing Market: Smart Grids, Connected Cars, Industrial IoT, Smart Cities, Others

#### Market Trends:

The trend towards edge computing and the growing demand for decentralized, secure, and trustworthy computing infrastructures are driving the adoption of blockchain in edge computing.

#### Market Drivers:

Increasing demand for low-latency computing and real-time data processing in various industries such as healthcare, finance, and manufacturing.

#### Market Opportunities:

The use of blockchain in edge computing can enable new use cases such as edge analytics, distributed AI, and autonomous systems.

Book Latest Edition of Global Blockchain in Edge Computing Market Study @

<https://www.htfmarketintelligence.com/buy-now?format=1&report=2674>

With this report you will learn:

- Who the leading players are in Blockchain in Edge Computing Market?
- What you should look for in a Blockchain in Edge Computing
- What trends are driving the Market
- About the changing market behaviour over time with strategic view point to examine

competition

Also included in the study are profiles of 15 Blockchain in Edge Computing vendors, pricing charts, financial outlook, swot analysis, products specification & comparisons matrix with recommended steps for evaluating and determining latest product/service offering.

List of players profiled in this report: Amazon Web Services, Inc. (United States), Cisco Systems, Inc. (United States), Clearblade, Inc. (United States), Filament (United States), FogHorn Systems (United States), Huawei Technologies Co., Ltd. (China), IBM Corporation (United States), Intel Corporation (United States), Microsoft Corporation (United States), Nokia Corporation (Finland), NVIDIA Corporation (United States)

Who should get most benefit of this report?

- Anyone who are directly or indirectly involved in value chain cycle of this industry and needs to be up to speed on the key players and major trends in the market for Blockchain in Edge Computing
- Marketers and agencies doing their due diligence in selecting a Blockchain in Edge Computing for large and enterprise level organizations
- Analysts and vendors looking for current intelligence about this dynamic marketplace.
- Competition who would like to benchmark and correlate themselves with market position and standings in current scenario.

Quick Snapshot and Extracts from TOC of Latest Edition

Overview of Blockchain in Edge Computing Market

Blockchain in Edge Computing Size (Sales Volume) Comparison by Type (On-Premises, Cloud-Based)

Blockchain in Edge Computing Size (Consumption) and Market Share Comparison by Application (Smart Grids, Connected Cars, Industrial IoT, Smart Cities, Others) (2022-2028)

Blockchain in Edge Computing Size (Value) Comparison by Region (2023-2028)

Blockchain in Edge Computing Sales, Revenue and Growth Rate (2023-2028)

Blockchain in Edge Computing Competitive Situation and Current Scenario Analysis

Strategic proposal for estimating sizing of core business segments

Players/Suppliers High Performance Pigments Manufacturing Base Distribution, Sales Area, Product Type (On-Premises, Cloud-Based)

Analyse competitors, including all important parameters of Blockchain in Edge Computing

Blockchain in Edge Computing Manufacturing Cost Analysis

Latest innovative headway and supply chain pattern mapping of leading and merging industry players
