

Bagless Vacuum Cleaner Market is estimated to be US\$ 30.26 billion by 2030 with a CAGR of 8.5% -By PMI

The report " Bagless Vacuum Cleaner Market, By Type , By Application , and By Region - Trends, Analysis and Forecast till 2030.

OCVINA, CALIFORNIA, UNITED STATES,
April 5, 2023 /EINPresswire.com/ --

The report " [Bagless Vacuum Cleaner Market](#), By Type (Cord Vacuum Cleaner and Cordless Vacuum Cleaner), By Application (Residential, Offices, Restaurants, Hotels and Resorts, Supermarkets, Hospitals, and Industrial), and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) - Trends, Analysis and Forecast till 2030.

Bagless Vacuum Cleaner Market-PMI

The Bagless vacuum cleaner market is a segment of the home appliance industry that provides consumers with an alternative to traditional bagged vacuum cleaners. Bagless vacuum cleaners use cyclonic technology to separate dust and dirt from the air and collect it in a dustbin or canister, eliminating the need for disposable bags.

The Bagless vacuum cleaner market is experiencing significant growth due to several factors, including increasing awareness of the health and environmental benefits of using Bagless vacuum cleaners, as well as technological advancements that have improved their efficiency and ease of use.

Key Highlights:

- Eureka Forbes has developed Euroclean WD X2 Vacuum Cleaner. This cleaner is built with the ability to clean both wet and dry surfaces. It is manufactured with an improved suction and state-of-art Swiss design. On-board storage, wide range of accessories and advanced technology

make it a great combination of performance and value.

- On December 2019, Bissell launched new BISSELL CrossWave Cordless Max multi-surface floor cleaner vacuums and washes together, cleaning sealed hard floors and refreshing area rugs, and is now cordless, giving a greater cleaning freedom and more time to deck the halls.

Analyst View:

Currently, there has been rise in the online sale of household appliances on account of its comfort, convenience, and variety offered. Furthermore, customers are adopted towards e-commerce due to availability of products at competitive prices. Nowadays, the online sale of vacuum cleaners is moderate. However, its share is projected to increase in the future due to the improvement in consumer shopping experience through e-commerce.

Launch of innovative products in the global bagless vacuum cleaner market such as eco-friendly and energy-efficient vacuum cleaners is expected to boost growth of the market over the forecast period. Further, rising awareness about advantages of vacuum cleaners among consumers such as time efficiency, convenience has been gaining demand for the product worldwide. Additionally, growing adoption of advanced vacuum cleaner in various industries, such as retail, manufacturing, healthcare, and consumer, to maintain protection against hazardous dust and hygiene is expected further boosting demand for vacuum cleaner in the global over the forecast period.
