

Instant Connect extends its leadership in military voice communications with JITC certification

Instant Connect is a leading push-to-talk software for the U.S. DoD, certified by JITC and approved for use on Department of Defense Information Network (DoDIN)

CHICAGO, ILLINOIS, USA, April 5, 2023 /EINPresswire.com/ -- [Instant Connect Software LLC](https://www.instantconnect.com/), a global leader in [tactical radio/IP communications for the military](#), is proud to announce that its push-to-talk application and software have been certified by the U.S. Joint Interoperability Test Command (JITC). JITC is responsible for testing and evaluating the interoperability, security, and reliability of military communication systems for the U.S. Department of Defense (DoD), as well as other federal agencies and NATO partners.

A [JITC certification](#) ensures that Instant Connect meets the strictest of standards set forth by the U.S. DoD. Instant Connect is also approved for use on the Department of Defense Information Network (DoDIN), placing the software in an elite class of DoDIN-approved communications solutions.

“At Instant Connect, we understand that an interoperable tactical communications system is vital to the success of the modern military,” said Forrest Claypool, Instant Connect CEO. “And we passed the tests to prove it. Our JITC certification – and inclusion on the DoDIN’s approved product list – demonstrate the caliber of the Instant Connect solution. We are relentlessly committed to providing the U.S. Military and its international allies with interoperable radio and IP-based voice communications of the highest quality.”

Instant Connect Software is currently engaged with military and government agencies around the world, including every branch of the U.S. Military and many NATO allies. The company provides warfighters, government, life safety, and commercial frontline teams with interoperable
