(BBB), a global leader in the sustainable manufacturing of products

for the automotive and industrial markets, announces four (4) training webinars in 2023. The free webinars will be offered to automotive technicians, service professionals and enthusiasts.

BBB's Technical Training team has lined up the webinars to enhance technical knowledge and help technicians and professionals stay ahead on the competitive edge. The following webinars are scheduled for 2023:

- May 4th, 2023 - Ford 3.5L Gen 1 Turbo Systems @ 12pm (CST)
- July 13th, 2023 - Honda Charging Systems @ 12pm (CST)
- September 21st, 2023 - Steering Best Practice @ 12pm (CST)
- November 9th, 2023 - GM EPAS Systems @ 12pm (CST)

The webinars will cover various topics, ensuring a comprehensive understanding of the latest automotive technologies and best practices. Each webinar will be one-hour. Participants can also engage in live Q & A sessions with Master ASE Certified technical trainers.

Why should you attend our 2023 Free Webinar Series?

- Stay up to date with industry trends and developments, enabling you to provide the best service to customers.
- Learn from experienced professionals with years of hands-on experience in the automotive field.
- Network with fellow technicians, fostering collaboration and the exchange of ideas.
- Receive exclusive access to webinar recordings, supplementary materials, and valuable resources.

Register today for the 2023 Free Webinar Series by visiting: <https://engage.bbbind.com/training>.

About BBB Industries

BBB Industries, LLC is an industry leader in the sustainable manufacturing of starters, alternators, hydraulic and air disc brake calipers, both hydraulic and electric power steering products, and turbochargers for aftermarket industries.
