

Highlights from the Round Up News Magazine this week - April 6, 2023

Press Releases, Blogs, Podcasts, Case Studies, Webinars and Videos

SUNDRE, ALBERTA, CANADA, April 6, 2023 /EINPresswire.com/ --

Construction Links Network is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more.

Members use this platform to share and onboard their digital content on the Internet, through social media and our popular Round Up News Magazine. Ideal for product / service releases, company announcements, blogs, podcasts, webinars, case studies, videos and more.

The first top video is courtesy of Gerald Moore who announces that the Ontario Building Officials Association in partnership with RSM Building Consultants will be bringing a new type of training on techniques for Building Inspections. The OBOA Inspectors' Technique Suite will provide a suite of five micro courses designed to focus on how an inspection should take place, what the inspector should be looking for, and how and how to relate information to contractors and homeowners.

The second top video is courtesy of Civil Mentors who take a look at how modern roads built. From highways to small streets, the process of road construction has evolved over the years to become more efficient, eco-friendly, and durable. This video will take you through the step-by-step process of modern road construction, from breaking ground to the ribbon-cutting ceremony.

Content shares from members this week include:

- OnTraccr Technologies - [Unlocking the Potential of ChatGPT in Construction](#)
- T. Harris Environmental Management - National Pollutant Release Inventory (NPRI): What is it?
