

Foam Swab Manufacturer Super Brush will be Exhibiting at the ECCMID 2023

Super Brush LLC, manufacturer of foam swab products, will be exhibiting at the European Congress of Clinical Microbiology and Infections Diseases

SPRINGFIELD, MA, US, April 6, 2023 /EINPresswire.com/ -- The Super Brush sales and development team will be showcasing a wide-range of durable, lint-free, adhesive-free foam swab products at the 33rd ECCMID (European Congress of Clinical Microbiology and Infectious Diseases) in Copenhagen, Denmark, April 15-18, 2023, in Booth #B4-17. The Super Brush team will be exhibiting diagnostic testing kit swabs, as well as swabs for device assembly operations, swabs for inclusion in medical kits and trays, as well as swabs for cleaning electronics and printers.

“

Lint-free foam swabs can be used to an advantage in the surgical suite, and we're proud to talk about the many ways Super Brush foam swabs can add to the value of a kit”

Arvid Gogaj - European Sales Manager

“We are frequently asked how our durable, lint-free foam swabs can be used to an advantage in the surgical suite, and we're proud to talk about the many ways Super Brush foam swabs can add to the value of a kit,” says Arvid Gogaj, European Sales Manager, at Super Brush LLC. “For instance, Super Brush foam swabs can be used for application of antiseptics and skin barrier films and can be pre-saturated with fluids for single-use applications. In addition, our foam swabs are manufactured without adhesives so that they do not include contaminating chemicals.”

The USA manufacturer Super Brush will be at Booth #B4-17 for all four days in the Bella Center Copenhagen exhibiting their lint-free, durable foam swabs at ECCMID – the European Congress

33rd ECCMID EUROPEAN CONGRESS OF CLINICAL MICROBIOLOGY AND INFECTIOUS DISEASES

Visit with the Super Brush team at the 33rd ECCMID

Copenhagen, Denmark on 15 - 18 April 2023

Booth #B4-17
