Data Center Automation Software

According to HTF Market Intelligence, the Global Data Center Automation Software market to witness a CAGR of 19.1% during forecast period of 2023-2029. The market is segmented by Application (IT and Telecommunications, Manufacturing, Transportation and Logistics, Defense and Government, Healthcare, BFSI, Others) by Type (Solution, Services) and by Geography (North America, South America, Europe, Asia Pacific, MEA).

Definition:

Data center automation software is defined as the process of managing and automating the workflow and processes of a data center facility. It also helps enterprises by reducing the human task for managing as well as controlling the data center. The various benefits of using data center automation software, namely scheduling routine data center processes, monitoring data center components and automatically alerting, application service delivery, delivery of additional application workload on demand, among others. Increase in use of the internet which generate a huge amount of data are likely to be a prime driver of the global data center automation software market.

Market Trends:

- Technology Advancement in Data Center Automation Software

Market Drivers:

- Innovations in Processing Power and Memory
- High Demand for Resource Pooling and Custom/Manual Networking Configuration
- Application of Data Centers across Various Industry Domains

Market Opportunities:

- Growing Demand from Emerging Economics such as India, China and others

Revenue and Sales Estimation — Historical Revenue and sales volume are presented and further data is triangulated with top-down and bottom-up approaches to forecast complete market size and to estimate forecast numbers for key regions covered in the report along with classified and well-recognized Types and end-use industry.

SWOT Analysis on Data Center Automation Software Players

In addition to Market Share analysis of players, in-depth profiling, product/service, and business overview, the study also concentrates on BCG matrix, heat map analysis, FPNV positioning along with SWOT analysis to better correlate market competitiveness.

Demand from top-notch companies and government agencies is expected to rise as they seek more information on the latest scenario. Check the Demand Determinants section for more information.

Regulation Analysis

- Local System and Other Regulation: Regional variations in Laws for the use of Data Center

Automation Software

- Regulation and its Implications
- Other Compliances

FIVE FORCES & PESTLE ANALYSIS:

In order to better understand market conditions five forces analysis is conducted that includes the Bargaining power of buyers, Bargaining power of suppliers, Threat of new entrants, Threat of substitutes, and Threat of rivalry.

- Political (Political policy and stability as well as trade, fiscal, and taxation policies)
- Economical (Interest rates, employment or unemployment rates, raw material costs, and foreign exchange rates)
- Social (Changing family demographics, education levels, cultural trends, attitude changes, and changes in lifestyles)
- Technological (Changes in digital or mobile technology, automation, research, and development)
- Legal (Employment legislation, consumer law, health, and safety, international as well as trade regulation and restrictions)
- Environmental (Climate, recycling procedures, carbon footprint, waste disposal, and sustainability)

Heat map Analysis, 3-Year Financial and Detailed Company Profiles of Key & Emerging Players: Hewlett-Packard (United States), IBM (United States), Oracle Corporation (United States), Dell (United States), Brocade (United States), Cisco Systems, Inc. (United States), Microsoft Corporation (United States), CA Technologies (United States), VMware, Inc. (United States), BMC Software (United States)

Geographically, the following regions together with the listed national/local markets are fully investigated:

- APAC (Japan, China, South Korea, Australia, India, and the Rest of APAC; the Rest of APAC is further segmented into Malaysia, Singapore, Indonesia, Thailand, New Zealand, Vietnam, and Sri Lanka)
- Europe (Germany, UK, France, Spain, Italy, Russia, Rest of Europe; Rest of Europe is further segmented into Belgium, Denmark, Austria, Norway, Sweden, The Netherlands, Poland, Czech Republic, Slovakia, Hungary, and Romania)
- North America (U.S., Canada, and Mexico)

- South America (Brazil, Chile, Argentina, Rest of South America)
- MEA (Saudi Arabia, UAE, South Africa)

Some Extracts from Data Center Automation Software Market Study Table of Content

Data Center Automation Software Market Size (Sales) Market Share by Type (Product Category) [Solution, Services] in 2023

Data Center Automation Software Market by Application/End Users [IT and Telecommunications, Manufacturing, Transportation and Logistics, Defense and Government, Healthcare, BFSI, Others]

Global Data Center Automation Software Sales and Growth Rate (2019-2029)

Data Center Automation Software Competition by Players/Suppliers, Region, Type, and Application

Data Center Automation Software (Volume, Value, and Sales Price) table defined for each geographic region defined.

Supply Chain, Sourcing Strategy and Downstream Buyers, Industrial Chain Analysis
