

## Network Forensics Market Size (US\$ 7.2 Billion) | Industry Growth Report 2023-2028

The global network forensics market size reach US\$ 7.2 Billion by 2028, exhibiting a growth rate (CAGR) of 14.5% during 2023-2028.

NY 11249, BROOKLYN, USA, April 7, 2023 /EINPresswire.com/ -- According to the latest report by IMARC Group, titled "Network Forensics Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2023-2028," The global network forensics market size reached US\$ 3.0 Billion in 2022. Looking forward, the market expected to reach US\$ 7.2 Billion by 2028, exhibiting a growth rate (CAGR) of 14.5% during 2023-2028.

Network Forensics Market Research & Forecast Report 2023-2028

## Market Overview:

The procedure of gathering and examining unprocessed network data and monitoring network activity is known as "network forensics. It includes monitoring and analyzing computer network traffic while allowing individuals to gather information, compile evidence, and detect intrusions. Consequently, it finds extensive applications across the banking, financial services, and insurance (BFSI), healthcare, energy, education, telecom and information technology (IT), retail, aerospace, and defense sectors.

Global Network Forensics Market Trends and Drivers:

The growing need to protect networks from cyber and advanced attacks, such as ransomware, distributed denial of service (DDOS) attacks, and advanced persistent threats, is a major factor

driving the global market (APT. Furthermore, a considerable rise in demand for integrated and next-generation cloud-based networks has escalated the demand for network forensic solutions since these security solutions can conveniently adapt themselves to the changing network conditions. In addition to this, the escalating preference for bring-your-own-devices (BYOD) across numerous workspaces and the widespread adoption of the Internet of Things (IoT) have further provided an impetus to market growth.

Network Forensics Market 2023-2028 Analysis and Segmentation:

Competitive Landscape:

The competitive landscape of the market has been studied in the report with the detailed profiles of the key players operating in the market.

Cisco Systems Inc.

CrowdStrike Holdings Inc.

FireEye Inc.

Fortinet Inc.

International Business Machines Corporation

LiveAction Inc.

LogRhythm Inc.

McAfee LLC

**NETSCOUT Systems Inc.** 

NIKSUN Inc.

NortonLifeLock Inc.

Rapid7 Inc.

RSA Security LLC (Dell Technologies Inc.)

Trend Micro Incorporated

VIAVI Solutions Inc.

The report has segmented the market on the basis on region, component, organization size, deployment mode, application and end use industry.

Breakup by Component:

Solution

Services

Breakup by Organization Size:

Small and Medium-sized Enterprises (SMEs)

Large Enterprises

Breakup by Deployment Mode:

Cloud-based

## On-premises

Breakup by Application:
Data Center Security
Endpoint Security
Network Security
Application Security
Others

Breakup by End Use Industry:

**BFSI** 

Government

Healthcare

IT and Telecom

Education

Manufacturing

Retail

Others

Breakup by Region:

North America

Asia-Pacific

Europe

Latin America

Middle East and Africa

About Us

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

IMARC's information products include major market, scientific, economic and technological developments for business leaders in pharmaceutical, industrial, and high technology organizations. Market forecasts and industry analysis for biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, nanotechnology and novel processing methods are at the top of the company's expertise.

Our offerings include comprehensive market intelligence in the form of research reports, production cost reports, feasibility studies, and consulting services. Our team, which includes experienced researchers and analysts from various industries, is dedicated to providing high-quality data and insights to our clientele, ranging from small and medium businesses to Fortune 1000 corporations.
