If you're looking to join the group of Strathclyde alumni, [ScotsGrad](#) is here to help. We offer pre- and post-admission guidance, starting from exploring programs to sending an application. What's more? We also provide scholarship options!

About The University of Strathclyde

Founded in 1796, Strathclyde has been one of the most sought-after universities in the UK. From John Logie Baird, the inventor of the television, to musicians like Lauren Mayberry and Alex Kapranos, to prominent political and economic figures, the university has helped hundreds of notable alumni maximise their knowledge and broaden their horizons.

World-Class Courses

Strathclyde University offers undergraduate and postgraduate programs in science, engineering, business, law, social sciences, and humanities. The university follows a practical approach to teaching and emphasises experiential learning and real-world applications. Strathclyde's academic programs are designed to provide students with the skills and knowledge necessary to succeed in their chosen careers, no matter where they go in the world.

The university provides flexible learning options, including online and part-time ones. Strathclyde also offers a range of professional development courses designed to help professionals enhance their skills and advance their careers.

Focus on Research

Strathclyde University is a research-intensive institution, with a focus on applied research that has a real-world impact. The university's research areas include energy, health, manufacturing, photonics, and space technologies, among others. Strathclyde's research has received numerous accolades, including the Queen's Anniversary Prize for Higher Education, which recognized the university's contribution to the development of new technologies and its impact on society.

The university is home to several research centres and institutes, including the Advanced Forming Research Centre, the Institute of Photonics, and the Centre for Doctoral Training in Future Power Networks and Smart Grids. Strathclyde's researchers collaborate with industry partners, government agencies, and other universities to address some of the most pressing global challenges.

Community Engagement

Strathclyde University is deeply committed to engaging with the wider community and contributing to society. The university's outreach programs aim to inspire and engage young people in STEM subjects, promote access to higher education, and support economic growth and social development. Strathclyde also has a strong track record of working with local communities to address social issues, including poverty, health inequality, and environmental sustainability.

Top Programmes at Strathclyde

Strathclyde offers close to 250 Undergraduate programs and 200 Postgraduate ones. The university has four faculties, specialising in Engineering, Humanities & Social Sciences, Science and Business.

The university is recognised across the UK for its Accounting & Finance, Business Management, Economics and Marketing programs and ranks among the top 10 in the country with these courses. Strathclyde Business School started in 1948 and has been one of the best business schools in the country since then. It ranks 8th in the country for Accounting & Finance courses, and 17th for Marketing and Business Management. Ranked amongst the top 200 business

schools in the world since 2022, it is expanding its reach and inviting students from across the world.

Strathclyde's faculties of Engineering and Science are also renowned. It has consistently been ranked amongst the top 10 universities in the UK specialising in Science. Its Faculty of Engineering is amongst the top 25 in the country too. With a wide range of programs from Physics, Astronomy and Psychology to Chemical, Civil and Mechanical Engineering, Strathclyde has ample options for every student.

The Faculty of Humanities and Social Sciences at the university ranks 2nd in the UK for Communication and Media Studies, 4th for Journalism courses and 30th for Politics. Needless to say, the top thinkers of the world will find themselves at home here.
