Multipoint Group Partners with Perimeter 81 to Deliver Its Secure Network Globally

Multipoint Group is excited to announce its partnership with Perimeter 81, a leading Zero Trust Network Access (ZTNA) provider

KEFAR SABA, ISRAEL, April 13, 2023 /EINPresswire.com/ -- Multipoint Group is excited to announce its partnership with Perimeter 81, a leading Zero Trust Network Access (ZTNA) provider. This partnership will enable Multipoint Group to deliver its secured network globally, while providing its customers with an easy-to-use, cloud-based platform to protect their local networks from cyber-attacks.

Perimeter 81's ZTNA platform offers a comprehensive solution that ensures secure remote access for all devices, applications, and users. This platform simplifies the complexity of traditional VPN solutions by providing a secure cloud-based network that ensures optimal protection of all endpoints.

> With this partnership, we can deliver secured networks to our customers globally, while simplifying the complexity of traditional VPN solutions"

Multipoint Group's partnership with Perimeter 81 aligns with its commitment to providing its customers with secure and reliable network solutions. The company recognizes that cyber threats are increasing in frequency and complexity, and therefore takes cybersecurity seriously. Multipoint Group's customers can now enjoy added peace of mind knowing their networks are secured by a trusted provider with a proven track record in the cybersecurity industry.

"We are excited about our partnership with Perimeter 81, and the value it brings to our customers," said Ricardo Resnik CEO of Multipoint Group. "With this partnership, we can deliver

secured networks to our customers globally, while simplifying the complexity of traditional VPN solutions. We are committed to providing our customers with the best cybersecurity solutions, and this partnership is a testament to that commitment."

Perimeter 81's platform helps partners quickly develop their network security and reduce operational complexity and costs by replacing multiple network security solutions with a single and easy-to-use cloud-based platform. With over 2800 customers worldwide, Perimeter 81 offers advanced features such as Zero Trust Remote Access (ZTNA), Internet access control, Malware protection, and Firewall as a service (FWaaS). Any business can build a secure corporate network over a private global backbone without hardware within minutes. The entire service is managed from a unified console and is backed by an award-winning global support team 24/7.

"In today's corporate landscape, the open internet has become the new norm. Thus, it's crucial for companies to demand cybersecurity solutions that are simpler to manage and work with trusted service providers. We are excited to collaborate with Multipoint Group to offer their clients the essential network and security solutions to combat cyber threats". said Rich Farbman, VP of Channel Sales, Perimeter 81.
