

Stone Paper Market is estimated to be 24.3 Billion by 2026 with a CAGR of 6.3% during the forecasted period.

Stone Paper Market, By Component (Calcium Carbonate, High-density Polyethylene, and Others), By Application (Labelling Paper, Packaging Paper)

COVINA, CALIFORNIA , UNITED STATES, April 10, 2023 /EINPresswire.com/ -- Growing demand from key application segments, such as labeling, packaging, and self-adhesive paper is projected to witness a positive impact on overall industry growth over the forecast period.

The [Stone Paper market](#) accounted for US\$ 17.8 billion in 2018 and is estimated to be 24.3 billion by 2026 and is anticipated to register a CAGR of 6.3%. Stone paper is also known as rock paper. It is highly strong, a kind of extremely durable, and ecofriendly paper. Density range of stone paper is 1.0-1.6, which equals to or more than ordinary paper, and a texture slightly similar to peel of a boiled egg.

The stone paper is not recyclable but is compostable and photo degradable under commercial conditions. Stone paper is suitable for packaging, stationery, bags, wrappers, adhesives, containers grease proof paper, and many other applications. Stone paper market is progressing its outlook as a result of packaging industries. The growth in packaging industry is attributed due to require for effective labelling and high-quality option, to expand the aesthetics of the packaged product. The global stone paper market accounted for US\$ 19.94 billion in 2020 and is estimated to be US\$ 36.97 billion by 2030 and is anticipated to register a CAGR of 6.4%.

The report. "Global Stone Paper Market, By Component (Calcium Carbonate, High-density Polyethylene, and Others), By Application (Labelling paper, Packaging paper, Self-adhesive paper, and Others), and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) - Trends, Analysis and Forecast till 2030".

Analyst View:

Development of advanced manufacturing techniques for the development of using calcium carbonate and rising investment in R&D is expected to be a key driver promoting growth of the target market. Additionally, growing concerns related to deforestation along with supportive rules promoting the use of an alternative to conventional paper is mainly to drive product demand. The key raw materials used for the production of product include high-density polyethylene (HDPE) and calcium carbonate (CaCO₃). The market is widely competitive due to the presence of a large number of manufacturers and suppliers. Key players are undertaking strategies to provide innovative products to expand and sustain their market positions with high-profit margins.

Key Market Insights from the report:

The global stone paper market accounted for US\$ 17.8 billion in 2018 and is estimated to be 24.3 billion by 2026 and is anticipated to register a CAGR of 6.3%. The market report has been segmented on the basis of component, application, and region.

- By component the HDPE segment is expected to register a higher CAGR rate over the forecast period. The growing demand for High-Density Polyethylene (HDPE) as an essential raw material from the industries such as fuel tanks, piping, furniture, and bottles will boost the growth of the HDPE segment of the market.
- By application, paper packaging segment arose as a leading application in 2016 estimating a highest total revenue share. The segment is projected to obtain momentum due to growing environmental concerns concerning the usage of plastics, which have shifted consumer preferences towards paper-based packaging options.
- By region, Asia Pacific led the global stone paper market in 2016 and is expected to maintain its dominance over the forecast period. The presence of suppliers and key manufacturers along with rising investments in R&D for the expansion of alternatives to pulp-based paper, such as stone paper are driving the market growth. Europe estimated for the considerable growth over the forecast period, due to increasing demand from the packaging industry and technological advancements across countries such as France, Russia, UK, and Italy, among others.

Competitive Landscape:

- Stone Paper Company Ltd.
- Kapstone Paper
- Sòluz Stone Paper S.A.
- Taiwan Lung Meng Technology Co. Ltd.
- Gaia-Concept BV
- Packaging Corporation and Parax Paper.
- Taiwan Lung Meng Technology Co., Ltd.,
- KapStone
- Gaiakraft.

The market provides detailed information regarding industrial base, productivity, strengths, manufacturers, and recent trends which will help companies enlarge the businesses and promote financial growth. Furthermore, the report exhibits dynamic factors including segments, sub-segments, regional marketplaces, competition, dominant key players, and market forecasts. In addition, the market includes recent collaborations, mergers, acquisitions, and partnerships along with regulatory framework across different regions impacting the market trajectory. Recent technological advances and innovations influencing the global market are included into the report.

Some Important Points Answered in this Market Report Are Given Below:

- Explains an overview of the product portfolio, including product development, planning, and positioning
- Explains details about key operational strategies with focus on R&D strategies, corporate structure, localization strategies, production capabilities, and financial performance of various companies.
- Detailed analysis of the market revenue over the forecasted period.
- Examining various outlooks of the market with the help of Porter's five forces Analysis, PEST & SWOT Analysis.
- Study on the segments that are anticipated to dominate the market.
- Study on the regional analysis that is expected to register the highest growth over the forecast period

Key Topics Covered

1. Introduction
 - Study Deliverables
 - Study Assumptions
 - Scope of the Study
2. Research Methodology

3. Executive Summary

- Opportunity Map Analysis
- Market at Glance
- Market Share (%) and BPS Analysis, by Region
- Competitive Landscape
- Heat Map Analysis
- Market Presence and Specificity Analysis

Key Questions answered in the report:

What is the scope of the market research report?

The Stone Paper Market report segments based on the basis of component, application, and region.

What are the growing factors related with the Stone Paper Market growth?

Growing concerns related to deforestation along with supportive rules promoting the use of an alternative to conventional paper is mainly to drive product demand.

What are the regions considered in the report & which region will dominate the market?

Asia Pacific is expected to grow at the fastest rate during the forecast period

About Prophecy Market Insights

Prophecy Market Insights is specialized market research, analytics, marketing/business strategy, and solutions that offers strategic and tactical support to clients for making well-informed business decisions and to identify and achieve high-value opportunities in the target business area. We also help our clients to address business challenges and provide the best possible solutions to overcome them and transform their business.
