What do people say about SOL virtual training?

B.P., January 2023 – [Flight & Ground Operations Diploma](#)

"Very positive experience. The focus was on the most important items with good time management so it was easy to keep attention, and consequently to complete the courses."

A.S., December 2022 – [Aircraft Technical Leasing Diploma](#)

"It was very detailed in the regulatory aspects and theoretical part. I found some new information and refreshed my knowledge. I would recommend this course for those who just begin the transition projects. Nevertheless, some of the topics are interesting even if you have big experience and for sure to update the new regulations knowledge."

H.M., January 2022 – [Human Factors in Aviation Maintenance \(Recurrent\) with VO](#)

"Generally well done. Much better product than other service providers I've used in past. The narrator had very good real-life examples and background information regarding accidents, which were used as examples."
