

Object Storage Market is Set To Fly High in Years to Come | IBM, Google, Microsoft

Object Storage Market Analysis & Forecast for Next 5 Years

PUNE, MAHARASHTRA, INDIA, April 10, 2023 /EINPresswire.com/ -- HTF Market Intelligence published a new research publication on [Object Storage Market Insights, to 2028](#) with 150+pages and enriched with self-explained Tables and charts in presentable format. In the Study you will find new evolving Trends, Drivers, Restraints,

Opportunities generated by targeting

market associated stakeholders. The growth of the Object Storage market was mainly driven by the increasing R&D spending across the world, however latest scenario and economic slowdown have changed complete market dynamics. Some of the key players profiled in the study are IBM Corporation (United States), Google (United States), Microsoft Corporation (United States), Dell

EMC (United States), Hitachi Vantara HCP (Japan), Huawei (China), Qumulo (United States), Scalify (United States), NetApp StorageGRID Webscale (United States), Scalify Ring (United States), Cloudian Hyperstore (United States)

HTF Market Intelligence published a new research Object Storage market with self-explained tables and charts in presentable format."

According to HTF Market Intelligence, the Global Object

Storage market to witness a CAGR of 13.58% during forecast period of 2023-2028. The market is segmented by Global Object Storage Market Breakdown by Application (Social media platforms, IT and telecommunications platforms, BFSI, Others) by Type (Public Cloud, Hybrid Cloud, Private Cloud) and by Geography (North America, South America, Europe, Asia Pacific, MEA). The Object Storage market size is estimated to increase by USD 7037.26 Million at a CAGR of 13.58% from 2023 to 2028. The report includes historic market data from 2017 to 2022E. Currently, market value is pegged at USD 6137.65 Million.

Definition:

The object storage market refers to the industry that provides solutions for storing and managing large amounts of unstructured data, such as files, images, videos, and other digital content. Object storage systems use a flat architecture and store data as objects, which are accompanied by metadata that provides information about the content and its context.

The titled segments and sub-section of the market are illuminated below:

The Study Explore the Product Types of Object Storage Market: Public Cloud, Hybrid Cloud, Private Cloud

Key Applications/end-users of Object Storage Market: Social media platforms, IT and telecommunications platforms, BFSI, Others

Market Trends:

Cloud-based object storage is on the rise: Cloud-based object storage solutions are becoming increasingly popular, especially for businesses that need scalable and flexible storage. Cloud object storage is also a good option for disaster recovery and business continuity planning.

Market Drivers:

Big Data: As more and more organizations generate vast amounts of data, they require storage solutions that can scale to accommodate petabytes of data. Object storage is well-suited to this task, as it can handle large amounts of unstructured data and scale to meet changing storage needs.

Market Opportunities:

Cloud Adoption: As more and more organizations are moving their data to the cloud, there is a growing need for scalable and cost-effective storage solutions. Object storage is a popular choice for cloud storage as it is designed for scale and can handle large amounts of unstructured data.

With this report you will learn:

- Who the leading players are in Object Storage Market?
- What you should look for in a Object Storage
- What trends are driving the Market
- About the changing market behaviour over time with strategic view point to examine competition

Also included in the study are profiles of 15 Object Storage vendors, pricing charts, financial outlook, swot analysis, products specification & comparisons matrix with recommended steps for evaluating and determining latest product/service offering.

List of players profiled in this report: IBM Corporation (United States), Google (United States), Microsoft Corporation (United States), Dell EMC (United States), Hitachi Vantara HCP (Japan), Huawei (China), Qumulo (United States), Scality (United States), NetApp StorageGRID Webscale (United States), Scality Ring (United States), Cloudian Hyperstore (United States)

Who should get most benefit of this report?

- Anyone who are directly or indirectly involved in value chain cycle of this industry and needs to be up to speed on the key players and major trends in the market for Object Storage
- Marketers and agencies doing their due diligence in selecting a Object Storage for large and enterprise level organizations
- Analysts and vendors looking for current intelligence about this dynamic marketplace.
- Competition who would like to benchmark and correlate themselves with market position and standings in current scenario.

Quick Snapshot and Extracts from TOC of Latest Edition

Overview of Object Storage Market

Object Storage Size (Sales Volume) Comparison by Type (Public Cloud, Hybrid Cloud, Private Cloud)

Object Storage Size (Consumption) and Market Share Comparison by Application (Social media platforms, IT and telecommunications platforms, BFSI, Others) (2022-2028)

Object Storage Size (Value) Comparison by Region (2023-2028)

Object Storage Sales, Revenue and Growth Rate (2023-2028)

Object Storage Competitive Situation and Current Scenario Analysis

Strategic proposal for estimating sizing of core business segments

Players/Suppliers High Performance Pigments Manufacturing Base Distribution, Sales Area, Product Type (Public Cloud, Hybrid Cloud, Private Cloud)

Analyse competitors, including all important parameters of Object Storage

Object Storage Manufacturing Cost Analysis

Latest innovative headway and supply chain pattern mapping of leading and merging industry players
