

Concrete Transformations gives West Virginia church basketball court a long-lasting upgrade

CHARLESTON, WV, UNITED STATES, April 10, 2023 /EINPresswire.com/ -- Decorative concrete coating business, Concrete Transformations, recently applied the long-lasting and durable [GRANIFLEX™](#) system to an outdated basketball court floor for a Presbyterian Church in Charleston, West Virginia. The new floor is not only aesthetically pleasing, but also provides safety and durability for the many activities that take place at the church.

West Virginia church basketball court after concrete coatings application.

The church's concrete floor was in rough shape, along with 40-plus years of different coatings and paint, making it difficult for anyone to use. The court required not just aesthetic updates but also safety improvements. The congregation wanted a floor that was slip-resistant and easy to maintain.

“

Not only does GRANIFLEX™ offer unparalleled durability and strength, but it also provides an unmatched level of flexibility and slip resistance.”

*Phil Farrington, co-owner
Concrete Transformations*

“Not only does this GRANIFLEX™ system offer unparalleled durability and strength, but it also provides a level of flexibility and slip resistance that is unmatched by other concrete coating options on the market,” said Phill Farrington, co-owner of Concrete Transformations.

To achieve the most efficient result, the Concrete Transformations team used the industry's best concrete grinders and vacuums from [Warrior Equipment](#) to prep the

5,800 SF floor in just 18 hours. The team meticulously removed floor coatings and applied the new system onto the concrete surface. The process involved grinding and prepping the surface for the new coating to ensure maximum bonding and adhesion. The completed project was stunning, with a rather colorful design that turned out great.

The GRANIFLEX™ system applied to the basketball court floor has many advantages. It is a

flexible, slip-resistant, impact-resistant, and waterproof coating that provides excellent scratch, stain, and UV resistance. It is not only low-maintenance, but it's easy to clean, durable, and provides a long life expectancy.

The church staff was pleased to see their old basketball court become revitalized into a modern, safer and long-lasting surface with an appealing look.

Concrete Transformations takes pride in providing high-quality services to its clients, ensuring satisfaction with their work. Their team of experts has helped homes and businesses across the

region transform underutilized concrete surfaces into durable, low-maintenance, and aesthetically pleasing spaces.
