

# At a CAGR of 10.3%, Construction Sustainable Materials Market Size Worth USD 574.93 Billion by 2027

*Increasing demand for reduced energy consumption in buildings is one of the significant factors influencing the market growth.*

VANCOUVER, BC, CANADA, April 11, 2023 /EINPresswire.com/ -- Global [Construction Sustainable Materials Market](#) report encompasses vital aspects of the global Construction Sustainable Materials business sphere. The study offers full coverage of the assessment of the technological developments, factors influencing the growth of the industry, current and emerging trends witnessed in the global and regional markets, key statistical data, forecast estimation, and key manufacturers and suppliers of the Construction Sustainable Materials industry.

“

Market Size – USD 261.48 Billion in 2019, Market Growth - CAGR of 10.3%, Market Trends –Supportive legislative regulations

”

*Emergen Research*

The global construction sustainable materials market size was valued at USD 261.48 Billion in 2019 and is forecasted to reach USD 574.93 Billion by 2027 at a CAGR of 10.3%. The construction sustainable materials market is observing a rapid growth attributed to its increasing application in residential, commercial, and industrial construction. Factors such as increasing demand for reduced energy consumption in buildings, a rise in infrastructure development projects in the APAC region, supportive legislative regulations, a rise in commercial & industrial

construction spending, and growing demand for green buildings drive the market demand.

## Competitive Landscape:

The report emphasizes the demands and trends for the Construction Sustainable Materials market in the global market, more importantly, in the market that is spread across the major regions of the country. These major regions include North America, Latin America, Europe, Asia Pacific, and Middle East & Africa. The Construction Sustainable Materials market is further segmented on the basis of product types offered in the market, application spectrum, leading manufacturers/companies, and key geographical regions.

The major companies Covered in the report are:

Bauder Limited, RedBuilt LLC, DuPont, Lafarge, Alumasc Group PLC, CertainTeed Corporation, PPG Industries, BASF SE, Forbo International SA, BinderHolz GmbH

Features of the Construction Sustainable Materials Market Report:

Extensive competitive landscape analysis to offer the readers key insights into driving and restraining factors along with strategies adopted by the key players

Assessment of the existing and emerging trends of the business sphere

Detailed analysis of the emerging growth opportunities and threats and limitations the players might face in the coming years

Significant breakdown of the market to assess the factors that might influence the global market growth

An 8-year forecast for better understanding of the workings and growth opportunities of the market

Extensive analysis of the key geographical regions to assess market share, market size, production and consumption, revenue contribution, and supply and demand ratio

Comprehensive overview of the Construction Sustainable Materials market on a regional and global level

The Construction Sustainable Materials market has been divided into types, applications, and regions. The Construction Sustainable Materials report offers a growth analysis of each segment to provide an accurate calculation and forecast of sales in the time period 2017-2027. The

analysis offers strategic insights that provide fruitful information to the readers to help them capitalize on the business offerings. Market share data is also available on a global and regional level.

Segments Covered in this report are:

Product Type Outlook (Revenue, USD Billion; 2017-2027)

Structural

Interior

Exterior

Others

Application Outlook (Revenue, USD Billion; 2017-2027)

Insulation

Roofing

Framing

Interior Finishing

Exterior Siding

Others

End Users Outlook (Revenue, USD Billion; 2017-2027)

Residential

Commercial

Industrial
