Rising demand for sports and energy drinks among athletes and individuals engaged in intense physical activities majorly drives the functional beverages market growth. The growing athlete community and an increasing number of sportspersons in developing countries are some of the other factors driving the market. In addition, rising consumer inclination towards physical fitness and an increased number of fitness centers and health clubs are expected to fuel the market growth. Manufacturers are focusing on expanding their product portfolio by innovating new flavors with added health benefits. They are targeting different age groups owing to the

popularity of sports drinks among teenagers and adults. The production of functional beverages with natural ingredients, such as natural sweeteners, is expected to propel the market growth by providing an opportunity to the manufacturers to add value to their products.

According to the functional beverages market analysis, the functional beverages market segmented into type, distribution channel, end user and region. On the basis of type, the market is categorized into energy drinks, sports drinks, dairy-based beverages, juices and others. By distribution channel, it is bifurcated into supermarket and hypermarket, specialty stores, E-commerce and others. Depending on end user, it is segregated into athletes, fitness lifestyle users and others. Region wise, it is analyzed across North America (the U.S., Canada, and Mexico), Europe (Germany, France, UK, Italy, Spain, Russia and Rest of Europe), Asia-Pacific (China, Japan, Australia, India and Rest of Asia-Pacific), and LAMEA (Brazil, Argentina, Saudi Arabia, South Africa and Rest of LAMEA).
