

Vehicle History EU: Launches with European VIN Check & Vehicle History Reports for the European Automotive Market

Vehicle History EU: A New Website That Provides European VIN Check and Comprehensive Vehicle History Reports for Unmatched Transparency in the Automotive Market

MONTREAL, QUEBEC, CANADA, April 11, 2023 /EINPresswire.com/ -- [Vehiclehistory.eu](https://vehiclehistory.eu), a would-be leading provider of vehicle history reports for European vehicles, announced its launch today. The website offers comprehensive vehicle history reports and free VIN decoding services to car buyers, sellers, and enthusiasts across Europe.

A [European vehicle history report](https://vehiclehistory.eu) from Vehiclehistory.eu provides a detailed look into a car's past. The report includes crucial information such as accident history, mileage records, auction information, and images (when available), vehicle specifications, title & condition, ownership history, and service records. The reports are compiled from a variety of sources, including insurance companies, DMVs, and other official registries, ensuring the accuracy and completeness of the information.

"Buying a car is a significant investment, and we believe that everyone should have access to the most accurate and up-to-date information about the vehicle's history before making a purchase," said Fahad Iqbal, CEO of Vehicle History.eu. "Our reports give our customers peace of mind and

Vehicle History EU.

European vehicle history reports

help them make informed decisions about their purchase."

In addition to vehicle history reports, Vehiclehistory.eu also offers free VIN decoding services. The website can decode any VIN for any European vehicle and provide information such as the model year, engine size, and other technical specifications.

"We're committed to providing our customers with the most comprehensive and accurate information about their vehicles," said Fahad during a press briefing. "We understand that buying a used car can be a daunting task given the potential pitfalls that may arise, but our services make it easier and more transparent."

Vehicle History EU is dedicated to providing its customers with the highest level of service and support. The website is easy to use and offers a variety of payment options to make purchasing a report as convenient as possible.

Car theft is a significant problem in the European market, with hundreds of thousands of vehicles stolen each year. According to a report by the European Police Office (Europol), car theft is estimated to cost the EU economy approximately €8.2 billion annually. The most commonly stolen vehicles are high-end luxury cars, as well as older models with less advanced security features. You can avoid getting caught up in the web of a Police investigation by using the tools provided by Vehiclehistory.eu

How to Obtain a European Vehicle History Report

The first step towards obtaining a vehicle history report is to search and find the Vehicle Identification Number (VIN) also known as the Chassis number.

After obtaining the vehicle identification number of the vehicle proceed to vehiclehistory.eu. On the homepage of the website you will find a form field where you can input your email address, phone number, and VIN. Once this is done click on the "Search" button.

You will be presented with specifications about the vehicle for free. This is known as "VIN decoding". You may then proceed to a checkout page if you want to obtain the full detailed vehicle history report.
