

# Coloromo to Showcase the Fastest AI-Powered Image-to-Art Platform at the AI Virtual Summit on April 28, 2023

SACRAMENTO, CA, USA, April 13, 2023 /EINPresswire.com/ -- [Coloromo](#), the world's fastest AI-powered platform that lets you create personalized art from your own photos, is excited to announce its participation at the upcoming [AI Virtual Summit](#) on April 28, 2023. The event brings together industry leaders and experts to discuss the latest trends and innovations in the world of artificial intelligence.

At the AI Virtual Summit, Coloromo's co-founder, Patrick Tardif, will showcase the platform's advanced AI algorithms that enable users to create beautiful and meaningful art pieces from their own photos. Coloromo's easy-to-use platform allows anyone to turn their memories into works of art that are uniquely tailored to their style, décor, and preferences.

“

At the AI Virtual Summit, Coloromo will demo our advanced AI algorithms enabling users to easily create meaningful art pieces from their own photos that are uniquely tailored to their style & décor.”

*Patrick Tardif, CEO*

"Art is a powerful way to express yourself and connect with others," said Mr. Tardif. "At Coloromo, we believe that everyone should have the opportunity to create beautiful and personalized art pieces that reflect their unique style and personality. Our platform makes it easy for anyone to turn their photos into stunning works of art that they can cherish for years to come."

Coloromo's AI-powered platform offers a range of styles, colors, and effects to choose from, making it dead-easy to

create a personalized piece of art that's uniquely one's own. The platform also offers a range of sizes and formats to fit any space or budget. Users can also create super-high resolution digital artwork from their photos and download social/web-ready images for free.

With no software or apps to download, no sites to join, no confusing prompts, Coloromo is dead-simple to use. Upload a picture and virtually instantly get back thousands of varied artistic stylized versions of that image. So long as the user has rights to the inputted image, Coloromo passes the copyright along to the user as well so there are no copyright infringement worries.

"At the AI Virtual Summit, we're excited to showcase our platform's capabilities and demonstrate how easy it is to create personalized art using AI technology," said Mr. Tardif. "We're confident that our platform will inspire people to explore their creativity and express themselves through art."
