Jason Kaplan

Founded in 2009, The Credit Pros has grown exponentially over the past decade, earning praise for the value of its services, the quality of customer care, and its innovative methods in the credit repair industry. Its owner, Jason M. Kaplan, Esq., researched every credit law to develop advanced methods and strategies to help clients achieve a

healthy credit standing.

With an unwavering commitment to customer care and innovative technical solutions, The Credit Pros has served tens of thousands of clients across the United States, helping them restore their [credit scores](#) and improve their overall financial standing.

"We are passionate about helping our clients achieve their financial goals by educating them on how to avoid credit-oriented mistakes in the future, and we're equally committed to building a company that improves the lives of our clients and our employees," said Kaplan.

The Credit Pros takes a unique approach, targeting the removal of negative, inaccurate, outdated, and erroneous items from clients' credit reports. The company walks clients through on how the credit system works and implements proactive measures to improve it. The results have been clear - The Credit Pros has achieved Inc. Magazine's recognition as one of America's 5,000 fastest-growing companies for six consecutive years. When clients choose The Credit Pros, they can expect best-in-class support from knowledgeable experts who are passionate about empowering individuals and families.

"Almost every decision you make in your life requires a good credit reputation, and we dedicate

ourselves to helping clients reach that point. Credit is your financial power. Without a healthy credit score and report, you will be at the mercy of lenders, landlords, potential employers and other entities to make decisions determining your worth. Having little, no or poor credit can make one's life very difficult to gain access to essentials, such as a home purchase, an apartment, car loans and believe it or not, favorable insurance rates. Good credit is a must." Kaplan added.

The Credit Pros offers a range of packages to suit different needs, including its flagship Success Plus Package, which includes unlimited disputes, a trade line, and a [credit builder](#) program. The company believes that everyone deserves to have a healthy credit score.

"If you're committed to improving your credit using our exclusive methods and innovative techniques, our packages are tailored to suit your needs and fit into your budget," said Kaplan.
