The Nature of Grief: deepening with the nature of our grief, ourselves as grieving nature, and the healing that comes through connecting with nature.

PHOENIX, ARIZONA, USA, April 19, 2023 /EINPresswire.com/ -- The Elisabeth Kübler-Ross Foundation (EKR Foundation), a non-profit organization inspired by the life of psychiatrist, humanitarian, and hospice pioneer Dr. Elisabeth Kübler-Ross, is pleased to announce its 6th Education Series, to launch Thursday, May 4, 2023. It's in the spirit of embracing all of life—which includes death—that we further Dr. Elisabeth Kübler-Ross' mission and vision through collaborations, education, and advocacy.

This Spring's Education Series, The Nature of Grief, frames grief within all that we understand to be natural/nature and explores the many ways in which grief intersects with nature, its cycles, our relationship to nature, and the current environmental condition of the planet. This series is an invitation to explore the fullness of grief through its origin and reference in nature.
