Press Release

Opkey Ranked Highest in Customer Satisfaction in G2's Software Testing Report

Opkey achieved a satisfaction score of 98. This ranking is a testament to Opkey's commitment to providing customers with the highest quality software testing solutions, as well as white-glove customer support. It also reflects continued and steady progress towards the company's goal of delivering the highest tier of automated testing services.

> We are thrilled to be recognized as a top software testing tool"
> *Pankaj Goel, CEO of Opkey*

"We are thrilled to be recognized as a top software testing tool," said Pankaj Goel, CEO of Opkey. "This achievement is a reflection of our ongoing commitment to innovation and customer satisfaction. We remain dedicated to providing our customers with simply the best." Opkey provides no-code, out of the box testing solutions for over 14 packaged applications, including Oracle, SAP, Salesforce, and Workday. The company specializes in quarterly patch updates, migrations, ad-hoc, and custom testing needs.

Opkey's software testing and automation solutions help organizations streamline their software testing processes and reduce the time and effort required to identify and resolve software issues. With Opkey, organizations can ensure that their software applications are reliable, scalable, and secure, enabling them to deliver a superior customer experience. The score of 98 is a reflection of what Opkey customers experience every day.
