

# EASA Part 145 HF Recurrent Training Requirements Have Changed – Sofema Online Meets the Challenge

SOFIA, BULGARIA, April 12, 2023 /EINPresswire.com/ -- Sofema Online (SOL) [www.sofemaonline.com](http://www.sofemaonline.com) is pleased to present dedicated recurrent training for Human Factors and SMS which is fully compliant with the requirements of Commission Implementing Regulation (EU) 2021/1963 which became effective on December 2nd, 2021

[EASA Part 145 Safety \(SMS\) & Human Factor \(HF\) Training \(Recurrent\) with VO](http://www.sofemaonline.com)

After many years EASA has updated Part 145 regulatory requirements and now requires the implementation of Safety Management Systems within all EASA Part 145 organisations.

This 1-day recurrent course integrates both Human Factor and Safety Management System Elements fully compliant with EASA GM2 145.A.30 (e) HF & SMS Training Requirements.

## Reality Check

People are at the core of our aviation system and we should all focus on the need to be willing to engage with the organisation's safety management system as well as to remain aware of the potential for human error-driven exposure at all times.

In addition, we must strive to ensure we are able to deliver a strong human performance to protect both the person and the system.

Sofema Online Safety Management and Human Factor Courses provide Voice Over to ensure value is added to the course and results in very strong positive client feedback.

A promotional banner for Sofema Online. It features a blue background with a white dotted pattern on the left and a photograph of an aircraft engine on the right. The text is white and blue. The Sofema Online logo is in the top left corner of the banner.
