The key factors influencing the market growth include growing adoption of the Anti-Drone by the defense agencies & intelligence bureau, growing adoption of the modern weaponry systems,

increasing interest in the adoption of the DEW for the forthcoming combats, and rising interest upon the UAV, drones & missile destroyers, to name a few. Besides, extensive rise in the cross-border conflict, broadening the number of the existing weaponry technology and updating them into the futuristic ones, and asymmetric warfare & intercountry border conflicts are some of the additional reasons behind the remarkable growth of the market. The laser-based DEW anti-drone system is expected to create higher enforcement into the market as many countries are deliberately developing or investing in the high-power laser-directed energy system for using against drones. Anti-Drone Market By Type (Laser Systems, Electronic Systems, Kinetic Systems, Others), By Application (Defense, Homeland Security), By End-Users (Marine-based, Land Vehicles, Airborne, Commercial), By Product (Detection, Detection & Disruption), By Power (Up To 100 KW, More Than 100KW), By Range (Up To 100 Meters, More Than 100 Meters) and Regions Forecasts to 2027

Key Players Included in this report are:

The Raytheon Company, The Boeing Company, BAE Systems, Northrop Grumman Corporation, Lockheed Martin, L-3 Communications Ltd, Moog Inc, Thales Group, Saab AB, Israel Aerospace Industries.

What can be explored with the Anti-Drone Market Study?

Gain Market Understanding

Identify Growth Opportunities

Analyze and Measure the Global Anti-Drone Market by Identifying Investment across various Industry Verticals

Understand the Trends that will drive Future Changes in Anti-Drone Market

Understand the Competitive Scenarios

Track Right Markets

Identify the Right Verticals

Quick Buy Anti-Drone Market

Further key findings from the report suggest

In June 2020, Applied Technology Associates (ATA) revealed a contract for developing a target

acquisition & tracking platform for the installation on a Stryker military ground vehicle being a part of U.S. Army initiative in order to increase the protection of the soldiers using laser weapon systems.

Higher applicability and increasing investment in the R&D of laser-based direct energy weapons have created a mentionable number of use cases and remarkable growth in the DEW market.

The Laser sub-segment in the type of weapons systems segment had 61.2% market share in the year 2019.

The regions in the Asia Pacific led by China, India, Israel, and South & North Korea are allotting a considerable budget for their defense & law enforcement grooming purposes.

Market Segmentation Analysis

Players can concentrate on high-growth regions and, if necessary, modify their business plan according to the research report. The Anti-Drone Market is divided into a variety of categories, uses, and geographical areas. Players gain from the report's regional segmentation research since it offers pertinent data and insights into important geographic marketplaces.

Type Outlook (Revenue: USD Billion; Volume: Thousand Units; 2017-2027)
Laser Systems
Electronic Systems
Kinetic Systems
Others
Application Outlook (Revenue: USD Billion; Volume: Thousand Units; 2017-2027)
Defense
Homeland Security
COVID-19 Impact Analysis

The post-COVID-19 phase has undergone substantial change, and Anti-Drone Market research highlights the opportunities and difficulties that still exist. This study report thoroughly examines the effects of the COVID-19 pandemic on the global economy and post-pandemic market behaviour.

Regional Outlook

We carefully examined each division, regional classification, national study, and subject-specific data set during the market research. This Anti-Drone Market research report's goal is to look at growth patterns, promising futures, important obstacles, and expected results. Information on significant market participants, strategic alliances, plans, new product launches, and joint ventures are all included in the research.

Key Reasons to Purchase Anti-Drone Market Report

The reader will be in a position to comprehend and react to marketing strategies like using strengths and conducting a SWOT analysis.

The research looks into the dynamics of the target market and how the conflict between Russia and Ukraine has affected it.

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyse consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
