

WP-Expert.com Offering Free WordPress Support to Charity Organizations Through July 31

Company generously helping charities in need of expert website support and maintenance to retain and attract donors

MIAMI, FLORIDA, UNITED STATES, April 12, 2023 /EINPresswire.com/ -- [WP-Expert.com](https://wp-expert.com), a fully transparent WordPress support and maintenance company, today announced it is donating its services to charities, giving 100% free WordPress support to qualified non-profits through July 31, 2023. WP-Expert.com brings state-of-the-art expertise to clients for all aspects of seamless website function, which is vital to inviting, capturing and documenting donors to these charitable organizations.

The most important factors in maintaining the best websites for non-profits include website health, security and ongoing technical support.

"If a site is not functioning optimally, charitable site visitors and prospective donors who encounter glitches or bugs may not be able to navigate or understand the process of giving to a respective charity," said WP-Expert.com co-founder Nick Milojevic. "Donors might leave the site in frustration without having been captured and before committing to donations, all because the interaction with a website makes it too much work to try and donate."

Milojevic continued, "A broken contact form, expired SSL certificate or other seemingly small website issue may cause functionality problems, website lag or delays or other donation-stopping issues. People on the receiving end of charitable donations desperately waiting to receive help will suffer the most if important funds cannot reach those in need."

So, as a thank you to charitable organizations, as well as medical and emergency fundraising organizations and projects everywhere, WP-Expert.com is proudly using its decades of first-hand development experience to give something back.

To apply for free WordPress support, visit <http://wp-expert.com/>, scroll all the way down and fill out the contact form.
