

# Urgent Care Apps Market to Flourish with an Impressive CAGR 40.2% during 2020-2027 | Emergen Research

*Explore how innovative technology is revolutionizing healthcare by providing convenient and accessible care on demand. Discover the future of healthcare.*

VANCOUVER, BRITISH COLUMBIA, CANADA, April 12, 2023

/EINPresswire.com/ -- The global [urgent care apps market](#) is projected to reach USD 7,931.1 Million by 2027, according to a current analysis by Emergen Research. The global urgent care apps market is projected to

expand significantly, owing to increasing adoption of mobile apps to reduce healthcare costs. Rising demand for patient-centered treatment is anticipated to further drive the global urgent care market during the forecast period. Moreover, rising adoption of Internet of Things (IoT) in the healthcare industry for high-quality healthcare outcomes is expected to boost the global urgent care apps market during the forecast period.

“

Urgent Care Apps Market Size – USD 591.5 Million in 2019, Market Growth – at a CAGR of 40.2%, Market Trend – Rise in adoption of Internet of Things (IoT) for high-quality healthcare outcomes”

*Emergen Research*

However, alternative solutions such as instant messaging applications and concerns associated with cyber-attacks are expected to impede the global urgent care apps market during the forecast period.

This report further explores key facts and figures related to current market conditions and provides an industry-validated database for companies looking to invest in the market. Additionally, the report provides actionable insights that help readers identify key opportunities and

challenges faced in the broad competitive landscape of the Urgent Care Apps market. These insights also help formulate lucrative business expansion strategies to gain a competitive edge in

the market.

#### Market Drivers:

The constant efforts of prominent players to develop newer and modern technologies and product advancements are expected to drive the growth of the industry over the coming years. The report studies the extensive business expansion plans and advancements in R&D activities and product portfolio. The report offers a clear understanding of the alliances in the market, such as mergers and acquisitions, joint ventures, collaborations, partnerships, agreements, product launches and brand promotions, and corporate deals.

#### Key Highlights of Report

In February 2020, Arrow Solutions LLC was acquired by Alaya Care Inc. The deal would expand and strengthen Alaya Care's product capabilities in the diverse and highly regulated health care landscape

The post-hospital applications segment is expected to lead the market, expanding at a CAGR of 40.3% during the forecast period, which is attributable to benefits of post-hospital applications such as expense reduction, error prevention, enhanced patient outcomes, preventive care, and efficient medication management.

The trauma segment is expected to lead the market during the forecast period. Surge in the number of roadway accidents in developing nations and rising need for post-hospital treatments are estimated to promote growth of this segment during the forecast period.

The cloud-based segment is expected to dominate the market during the forecast period, due to the advantages such as hosting emergency care apps in the cloud, including enhanced reliability, effective data processing, better safety, and enhanced accessibility.

The emergency care & training segment is expected to lead the market throughout the forecast period. The specialized smartphone app for hospitals can quickly detect emergency situations with convenience. In an emergency circumstance, the mobile application can notify health care providers of urgent situations, and healthcare professionals can quickly provide all the essential information through the app.

The North America region is anticipated to hold the largest market share during the forecast period. Growing adoption of new-technology solutions in healthcare, availability of developed healthcare infrastructure, and increasing penetration of smartphones are expected to boost the market in the region during the forecast period.

Report Scope:

Historical Data: 2016-2018

Forecast Period: 2020-2027

CAGR: 40.2%

Base Year: 2019

Number of Pages: 250
