UNITED STATES, April 13, 2023

[/EINPresswire.com/](https://www.einpresswire.com/) -- There's a lot to consider when choosing a crib for a newborn baby. Safety is an obvious priority, but also space and functionality - and that's before you even begin to think about materials, colors, and style! But if 2023's Best Cribs awards lists have anything to say about it, popular nursery furniture company dadada Baby's Soho 3-in-1 Convertible Crib might be among the most popular choice for this year's new parents.

Award Winning Soho Crib

Industry giant [Babylist](#) awarded the Soho 3-in-1 Crib Best Modern Crib of 2023. The Soho, which is made from natural, solid beechwood and grows along with baby by converting from a crib to a toddler or day bed, also made waves on [ABC 15's](#) Best Cribs of 2023 list, where it took the title for Most Stylish Crib. And popular product review site [GilsonSlyceum](#) awarded the Soho Best Solid Wood Crib over well-known nursery furniture competitors, including Babyletto, Carter's, and DaVinci.

"It's a product we're extremely proud of," says dadada Baby. "Ultimately, our goal is always to support new parents. In 2023, that means modern design that feels right in their home, convenient function and adjustability that makes every day parenting a little easier, and quality materials they know are baby-safe, trustworthy, and built to last. We aim to build heirlooms that will stay out of landfills full of fast-furniture and, instead, stay in the family for generations."
