

Chesapeake Specialty Products, Inc. CEO Kenneth Sanchez Recognized at Maryland International Business Leadership Awards

BALTIMORE, MARYLAND, USA, April 13, 2023 /EINPresswire.com/ --

Chesapeake Specialty Products, Inc. (CSP) is proud to announce that its President and CEO, Kenneth Sanchez, was recognized at the 26th annual Maryland International Business Leadership Awards ceremony, held in March 2023. The ceremony, co-hosted by The World Trade Center and the Maryland Department of Commerce, honored leaders of Maryland businesses that have made a significant global impact.

Sanchez was one of eight Maryland-based executives recognized at the ceremony, which included representatives from a range of industries, including art, finance, and healthcare. In his remarks, Eddie Resende, CEO of the World Trade Center Institute, praised the honorees for being role models for those who want to drive growth and global good. "We are thrilled to see Ken Sanchez recognized at the Maryland International Business Leadership Awards," said a company spokesperson. "Under his leadership, CSP has made significant strides in expanding its global footprint and strengthening its position as a leading provider of [steel abrasives](#) and specialty additives. This recognition is a testament to Ken's vision, dedication, and hard work, as well as the talent and commitment of the entire CSP team".

The Maryland International Business Leadership Awards ceremony is an important event that recognizes the contributions of Maryland-based businesses to the global economy. CSP is proud to have been part of this year's ceremony and looks forward to continuing to serve its customers around the world.

CSP is a provider of steel abrasives and specialty additives to the foundry, commercial painting, medical, industrial radiation shielding, and agriculture industries. The company's SphereOx[®] brand of sand additives is considered essential for preventing foundry casting defects around the world. CSP's Metgrit[®] and Metgrain[®] steel and iron abrasives clean to protect critical

infrastructure like bridges and water towers.
