sector, even though there are 70 million freelancers in the U.S., and freelancing is expected to comprise approximately 51% of the U.S. workforce in the next five years. FlyFin's cutting-edge AI technology and CPA expertise simplify tax management, helping self-employed individuals maximize tax deductions while transforming tax filing into an affordable, accessible and stress-free process.

The FlyFin logo consists of the word "FLYFIN" in a bold, teal-colored, sans-serif font. The letters are spaced out, with the "Y" being slightly larger than the others.

FlyFin logo

"At FlyFin, we understand the challenges that self-employed individuals and freelancers face when it comes to tax preparation and filing," said Jaideep Singh, co-founder and CEO of FlyFin. "Our 'Ask a CPA' resource is designed to provide them with the support and guidance needed to navigate the complex tax system. We're committed to making tax filing easier and more accessible, and we believe that this new resource is an important step in that direction."

About FlyFin

FlyFin is an award-winning, AI-powered platform that provides self-employed, sub-contractors, independent contractors, gig workers, freelancers, and creator economy workers with a convenient, easy-to-use, and affordable tax filing solution. With a "Man + Machine" approach, FlyFin leverages AI paired with highly experienced tax CPAs to deliver automation that eliminates 95% of the work required for 1099 self-employed individuals to prepare their taxes. FlyFin is a privately-held, venture-backed company based in San Jose, California.
