

# Introducing the 1st shoe made from CBD weed

*8000Kicks and RQS are thrilled to announce the launch of WEEDO, a limited edition shoe made from premium CBD weed in collaboration with Nisiseltor Studio.*

MOUNTAIN VIEW, CALIFORNIA, UNITED STATES, April 13, 2023

/EINPresswire.com/ -- This new launch is a response to the customer's constant question "Can we smoke the shoes?". The startup decided to take the joke further by actually using cannabis flowers instead of the regular hemp fibers to produce this unique shoe.

Weedo shoe

WEEDO, the model's name, showcases sustainable materials including cotton and hemp laces, hemp insoles, and a hemp interior. Each shoe is handcrafted with up to 500g of premium CBD

weed and takes up to 30 hours to manufacture. To create the shoe, an industrial grinder was used to break the weed flower into small pieces, which were then meticulously stitched onto the shoe. To ensure that the shoe is vegan-friendly and sustainable, a water-based glue was used to secure the materials together.

Of particular interest is the gradual aging process on the shoe, stemming from its utilization of genuine CBD weed. Over time, WEEDO's will develop a brownish hue as the CBD flowers dry up. This feature makes each pair of WEEDO's truly unique and a collector's item.

of-a-kind product that showcases our commitment to innovation and client's demand. We believe that this idea will surprise our customers who are looking for a more eccentric pair." said Bernardo Carreira, the CEO at 8000Kicks.
