Bitskout and Legend Group successfully completed trial for document automation

Bitskout and Legend Group successfully conducted a trial for Bitskout's no-code document extraction platform for non-tech users.
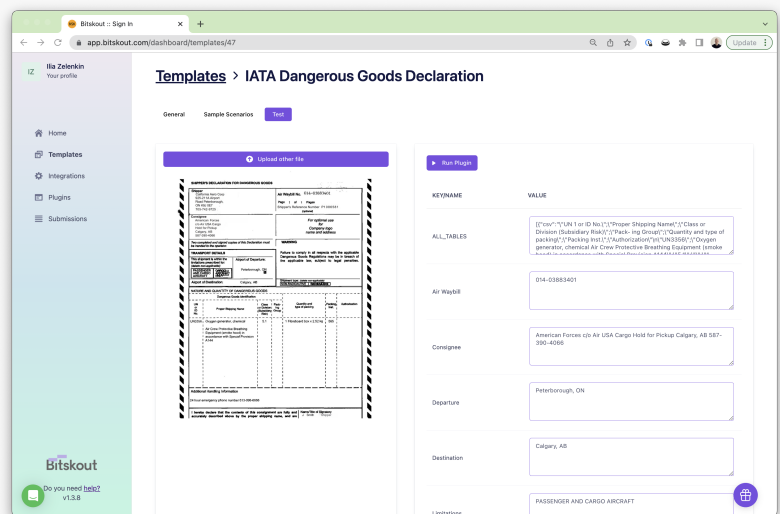

SINGAPORE, SINGAPORE, April 13, 2023 /EINPresswire.com/ -- Bitskout, a start-up that specializes in document automation for non-technical users, partnered with Legend Group, a leading integrated specialized logistics company, to test the automation of various document types. The trial was conducted as a follow-up after receiving a Commendation Prize in Trade and Connectivity Show last year. The goal of the trial was to validate the Bitskout platform in terms of ease of use and improve the efficiency and accuracy of document processing, with a focus on invoices, receipts, bills of lading, CVs, and bank statements.

During the trial, Bitskout demonstrated the effectiveness of its document automation platform in streamlining the processing of various types of documents, reducing errors, and improving turnaround time. Legend

Group was impressed with the ease of setting up the platform which took only a few hours and the impact it had on their workflow.

"We were happy to work with Bitskout on this trial and were impressed with the results," said Elizabeth Luei, Manager of the TradeLogic Division of Legend Group. "The process was seamless,

and we saw great improvements in our document processing time and accuracy."

Document automation is a critical component of modern business processes, enabling companies to reduce costs, improve accuracy, and free up staff time for more valuable tasks. And by allowing non-technical users to set up automations by themselves, the deployment and integration time is practically hours

which significantly reduces the upfront costs and load on IT teams. By partnering with Bitskout, Legend Group has demonstrated its commitment to staying ahead of the curve in the logistics industry.

"Working with Legend Group on this trial has been a great opportunity for us to showcase the value of our platform," said Ilia Zelenkin, CEO of Bitskout. "We are thrilled that Legend Group has seen the benefits of document automation and look forward to supporting them in their digital transformation journey."

About Bitskout:
Bitskout is a UNESCO-awarded startup and a winner of a Commendation Prize in the Trade & Connectivity Show in Singapore. The company's platform which is targeted at non-technical users leverages artificial intelligence and a simple user interface to allow teams to set up document extraction in a few clicks without technicalities. With more than 40 templates already available on the platform and with integrations to Zapier, and Microsoft Power Automate, Bitskout is helping teams accelerate digital transformation without extra resources.
