

M2S Bikes Launches Forest Bikes, a New Line of High-Quality Electric Bikes Designed for Outdoor Adventure Enthusiasts

M2S Bikes Launches Forest Bikes, a New Line of High-Quality, Affordable Electric Bikes Designed for Outdoor Adventure Enthusiasts

ASHEVILLE, NORTH CAROLINA, UNITED STATES, April 13, 2023

/EINPresswire.com/ -- M2S Bikes, a well-known electric bike brand based in Asheville, NC, has launched a new line of electric bikes called [Forest Bikes](#). The new brand is a result of years of research, design, and development, with a focus on delivering high-quality, affordable electric bikes for outdoor adventure enthusiasts.

Explore The Trails You Love With Ease With The Forest Summit Series

“

We dove headfirst into the process to create the best product possible. It was a long journey, but we're thrilled about what we have to offer with this new line. We are very excited about Forest Bikes”

Eric Crews

Forest Bikes offers two product lines, the [Summit series](#) and the [Ridge series](#), each designed with three different frame styles, including full suspension (FS), hard tail (HT), and step-through (ST). The Summit series is a high-end, mid-drive electric bike powered by the Bafang Ultra motor, one of the most powerful and reliable mid-drive motors on the market today. The Ridge series features the newly updated Bafang rear hub motor that offers a new torque sensor and controller configuration for improved performance on steep hills when riding off-road.

The Forest Bikes product line has been designed with a focus on performance and aesthetics, with upgrades on every element of the bike, from the front fork to the brakes to the frame design, to provide the best off-road performance available in the market today.

Eric Crews, the owner and founder of Forest Bikes, said that the idea behind the brand was to create a top-of-the-line electric bike series that not only offers the best performance possible but also embodies the elements of the adventure and nature experienced when riding these bikes. "We want to offer a product line that not only looks great but also performs at a high level, with custom-made accessories to enhance the overall experience," said Crews.

Forest Bikes' accessories include bolt-on front and rear tool racks, upgraded lights, and redesigned fenders to improve performance and aesthetics. These accessories are optional and can be added to the purchase for a premium experience.

Dan Ennis, the head of operations at M2S Bikes, expressed his confidence that Forest Bikes is a game-changer in the electric bike industry. "In designing this new product line, we had a chance to make the bikes better and make a better end product. We feel like we did it all with Forest Bikes," said Ennis. "We have new integrated racks, torque sensors on hub drive bikes, through axles on the forks, better brakes, a new battery design, and frame upgrades. Everything adds up to a way nicer package."

Forest Bikes' products are currently available for pre-order exclusively through rideforest.com and m2sbikes.com. The company aims to provide high-quality, affordable electric bikes for nature enthusiasts, with a focus on performance, aesthetics, and custom-made accessories to enhance the overall experience.

In conclusion, Forest Bikes is a new brand launched by M2S Bikes, offering high-quality,

Experience nature with power - Forest Bikes: High-performance electric bikes for outdoor adventure enthusiasts.

Forest Bikes are designed for outdoor exploration and adventure

affordable electric bikes for outdoor adventure enthusiasts. With a focus on performance, aesthetics, and custom-made accessories, Forest Bikes aims to provide the best off-road performance available in the market today. Pre-orders can be made through rideforest.com and m2sbikes.com.
