

Local Westchester Dentist Shay Markovitch has Transformed Hundreds of Lives with Teeth in a Day Procedure

Local Westchester Dentist Shay Markovitch has Transformed Hundreds of Lives with Teeth in a Day Procedure

NEW YORK, NEW YORK, UNITED STATES, April 13, 2023

/EINPresswire.com/ -- Dr. Markovitch has been transforming the lives of patients with the groundbreaking Teeth-In-A-Day procedure during which surgery can begin as early as the same day after extraction or implant placement. Then, in just one day, patients can walk out of Dr. Markovitch's office with beautiful new teeth that look and feel natural! Compared to bridges or dentures. The Teeth in a Day procedure is distinct in that it is a denture process supported by dental implants. Unlike the traditional procedure, which involves removing teeth first, then placing dental implants, then designing the denture, and ultimately attaching the denture over a matter of months, Teeth in a Day simplifies this process. ALL-ON-5 DENTAL is notably more robust. Dental implants offer a permanent and singular resolution to missing teeth by integrating into your jawbone with a small titanium screw. Within a few months, the implant naturally bonds with your mouth, making this procedure relatively straightforward and effective in nearly all cases. Don't hesitate to restore your smile!

Dr. Shay Markovitch

Located in the charming Village of Pelham, Dental Arts of Pelham is a family dental practice that offers comprehensive services. Dr. Shay Markovitch also works out of Dental Arts of Hastings-on-Hudson, Wappingers Falls Dental Arts in upstate NY, White Plains Family Dentistry and Westchester Smile Design. Their goal is to provide a complete and all-encompassing experience of excellent dentistry for every aspect of your family's dental needs, emphasizing a holistic approach to dental care. Dr. Markovitch has been transforming the lives of hundreds of patients with his compassionate and dynamic approach to dentistry. Known for his warm and friendly demeanor, Dr. Markovitch puts patients at ease while providing the most innovative care available in modern dentistry. Dr. Markovitch is an Israeli-born dentist who is married with three

children.

Dr. Markovitch is an experienced dentist with a background in both general and cosmetic dentistry. It was a match made in dental school for Shay and Lori Markovitch, who were destined for careers in dentistry. Hailing from Romania and Israel respectively, their families had a deep-seated history in dentistry. Their love for creating beautiful smiles prompted them to pursue advanced training at the acclaimed Eastman Center for Dentistry in Rochester, New York. Observing that the dental practices they encountered were outdated in terms of technology and devoid of a personal touch, Lori took an interest in learning about the business aspect of dentistry, while Shay focused on a singular mission of establishing their very own practice - a place where they could redefine the norms of the industry. In 2015, they accomplished their goal and opened their first dental practice.

In addition to being a certified Invisalign® provider, Dr. Markovitch is also a Lumineers® provider, which allows him to provide a fast and pain-free way for patients to transform their smiles into something that looks natural yet beautiful.

Dr. Shay Markovitch has helped countless individuals achieve their dream smile through his expertise, warmth and dedication towards each individual patient's needs. With every transformation he performs, he continues to be an important figure within the Westchester community and sets an example of excellence for other dental professionals who strive to reach similar heights of success and satisfaction amongst their own patient base. He started his training in cosmetic dentistry over two decades ago in Israel, before continuing his education in NY and taking part in countless continuing education courses. He is highly regarded by both peers and patients alike for his commitment to providing outstanding dental care with an emphasis on patient comfort and satisfaction. His commitment to patient education is also evident as he takes the time to thoroughly explain all stages of treatment to his patients as well as what options are available today. He believes that providing his patients with the necessary information allows them to make informed decisions about their oral health and overall well-being. Dr. Shay Markovitch is married to Dr. Lori Markovitch and together they have three children.
