

CabinetDIY Unveils a New Line of Distressed Kitchen Cabinets

The new collection offers homeowners a range of premium options to add a wide variety of unique looks to their kitchens or bathrooms.

ANAHEIM, CALIFORNIA, UNITED STATES OF AMERICA, April 13, 2023

/EINPresswire.com/ -- CabinetDIY, a leading online retailer of ready-to-assemble cabinets, is proud to announce the launch of its new line of [distressed kitchen cabinets](#). The new

line – inspired by a range of farmhouse-inspired finishes – is timely and perfectly complements a rustic décor trend that has been sweeping the nation in recent years.

According to a recent survey conducted by the National Kitchen & Bath Association (NKBA), farmhouse-style kitchens are becoming increasingly popular in the United States. In fact, 65% of the designers surveyed said that they had recently completed a project that incorporated some aspect of farmhouse style. The trend is particularly popular among homeowners who are looking to create a warm, welcoming, and comfortable space in their home.

"We're excited to offer our customers a range of cabinets that perfectly complement the farmhouse trend, which has been popular with homeowners across the country for many years now" said Eva, Designer at CabinetDIY. "Our distressed finishes add an extra layer of charm and character to any kitchen, making it the perfect space for family gatherings, entertaining guests, or just enjoying a cup of coffee on a lazy Sunday morning."

The new line of distressed kitchen cabinets from CabinetDIY features a variety of finishes, including weathered gray, antique white, and rustic black. The cabinets are made from high-quality materials, including solid wood frames and plywood panels, ensuring that they will stand up to years of use. The cabinets also feature soft-close hinges and drawer slides, as well as adjustable shelves and dovetail drawer boxes.

One of the standout features of the new line of distressed kitchen cabinets is their versatility. They can be used in a variety of design schemes, from traditional farmhouse to modern rustic to coastal chic. The cabinets also pair well with a range of countertop materials, including quartz, granite, and butcher block, and look equally appealing in a bathroom.

"We wanted to create a line of cabinets that would appeal to homeowners who love the warmth and charm of farmhouse style, but who also want a space that feels fresh and modern," said Eva Karadag, Head Designer at CabinetDIY. "Our distressed finishes give the cabinets a timeworn look that is perfect for creating a cozy and inviting space, and the quality materials and modern features ensure that they will stand up to the demands of modern living."

CabinetDIY's new line of distressed kitchen cabinets is now available for purchase on the company's website. Customers can choose from a range of sizes and styles, including base cabinets, wall cabinets, and pantry cabinets. The cabinets are shipped ready to assemble, making it easy for homeowners to install them on their own or with the help of a professional installer.
