

# CS Illumination Acquires LightWell Designs

*National Lighting Distributor Acquires Santa Monica-based Lighting Company*

CALIFORNIA, UNITED STATES, April 14, 2023 /EINPresswire.com/ -- [CS Illumination](#), Inc., a national commercial lighting distributor, has acquired LightWell Designs, Inc., a local Southern California lighting company. The official announcement was made in Santa Monica, CA on March 1, 2023. The move to acquire LightWell Designs first started in Q422 when LightWell Designs approached CS Illumination to support and serve LightWell's rapidly growing customer needs. The process took six months, and the deal was signed March 1, 2023.

"This acquisition will immediately add to our bottom line," said Scott King, President, CS Illumination. "And it will increase our already growing customer base in 2023."

The acquisition of LightWell Designs fits into CS Illumination's strategy to increase current growth initiatives, reach new markets and strengthen its buying power. By purchasing LightWell Designs, CS Illumination expects to increase its overall revenue by 35% over the next 36 months. This acquisition will benefit the customer's overall buying experience by providing access to CS Illumination's well-established operational excellence, manufacturer relationships and lighting expertise.

"Our customers are our top priority, and we welcome LightWell's longstanding client relationships with open arms," said Scott King, President, CS Illumination. "We're looking forward to this exciting new chapter."

## [About CS Illumination](#)

Our vision is to change the way lighting is specified and purchased in the marketplace. We tailor

CS Illumination Corporate Headquarters

solutions for specific markets including builders, developers, hospitality, retail, commercial projects, multi-family and high-end residential and restaurants. We bring stakeholders (owners, specifiers, architects, contractors, and engineers) together to add value, streamline decision-making and avoid mistakes, cost overruns, overages, late deliveries, and poor lighting performance. We strive to remove the layers of pricing markup and to deliver a lighting package with long-term value.
