Spoke Phone System.

Announcing: SOC 2 Type 2 Compliance

“A demonstrated commitment to protecting sensitive data and maintaining the highest standards of security.”

Spoke Phone for Twilio Awarded SOC 2 Type 2 Compliance

demonstrated its commitment to protecting sensitive data and maintaining the highest standards of security. With Spoke Phone, businesses can stay ahead of the competition and ensure seamless communication, no matter where their employees are located or what devices they use.

Spoke Phone announced today that it has achieved SOC 2 Type 2 compliance in accordance with American Institute of Certified Public Accountants (AICPA) standards for SOC for Service Organizations also known as SSAE 18. Achieving this standard with an unqualified opinion serves as third-party industry validation that Spoke Phone provides enterprise-level security for customer's data secured in the

Spoke Phone provides the only programmable cloud calling and messaging platform for Twilio. Spoke Phone serves enterprise-sized customers in healthcare, insurance, finance, retail, manufacturing, automotive, and field services, throughout the United States, Canada, UK, France, Italy, Thailand, the Philippines, Australia, and New Zealand.

The graphic is a promotional image for Spoke Phone. At the top left is the Spoke Phone logo, which consists of an orange square with a white 'S' and the text 'Spoke Phone' next to it. Below the logo, the text 'Better conversations and outcomes on any device' is displayed in a bold, black font. To the right of this text is a collage of various mobile app screens and interface elements, including a 'New Call' button, a 'Sales Team' profile card, and several data charts and graphs. At the bottom left of the graphic, there is a small black box with the text 'Powered by' followed by the Twilio logo. Below the entire graphic, the text 'The Only Enterprise Communications Platform for Twilio' is written in a black font.

The Only Enterprise Communications Platform for Twilio

Spoke Phone was audited by Prescient Assurance, a leader in security and compliance attestation for B2B, SAAS companies worldwide. Prescient Assurance is a registered public accounting firm in the US and Canada and provides risk management and assurance services.

An unqualified opinion on a SOC 2 Type 2 audit report demonstrates to Spoke Phone's current and future customers that they manage their data with the highest standard of security and compliance.

Spoke Phone adds SOC 2 Type 2 compliance to its growing list of industry certifications, such as HIPAA, allowing Spoke Phone to serve highly regulated industries (Healthcare, Finance, Insurance, etc.) with compliant voice, SMS, WhatsApp, and Web Chat on mobile phones and desktops computers.

Customers and prospects can request access to the audit report by contacting their Spoke Phone Account Executive or Spoke Phone Partner.

About Spoke Phone

Spoke Phone is a programmable cloud calling and messaging platform for Twilio, allowing companies to unlock up to 15 times more resources without hiring anyone.

Spoke Phone brings contact center-like screen-pops, process, and automation into the hands of every employee on any mobile phone or other device. This gives companies 10x – 15x more resources who can now have great customer conversations, provide better customer experiences, and drive positive business outcomes.

Spoke Phone is not a contact center or a phone system – it's just great customer conversations, experiences, and outcomes that occur anywhere, anytime, on any device (mobile phones, laptops, pads.)

Visit SpokePhone.com to learn more about how this innovative platform can transform your business communication.
