

Hisense Launches Hisense PX1-PRO TriChroma Laser Cinema in the ME region

DUBAI, UNITED ARAB EMIRATES, April 17, 2023 /EINPresswire.com/ -- Hisense has announced the launch of its latest TriChroma Laser Cinema projector, the Hisense PX1-PRO, in the Middle East region. The projector is designed to deliver a high-quality cinematic experience with its advanced laser technology and vibrant colors.

The Hisense PX1-PRO features a compact and sleek design, making it ideal for home theater enthusiasts and professionals alike. It offers a bright output of up to 2,000 lumens, ensuring clear and vivid images even in a well-lit room. The projector also features a wide color gamut, allowing it to reproduce a wide range of colors with precision and accuracy.

One of the key features of the Hisense PX1-PRO is its TriChroma technology, which uses three lasers instead of a single lamp to produce light. This results in a longer lifespan for the projector, as well as lower energy consumption and reduced heat generation. The projector also includes a built-in speaker system, providing a complete audio-visual experience.

With a throw distance of up to 130 inches, the Hisense PX1-PRO can be easily set up in a variety of locations, from small home theaters to larger commercial spaces. The projector also includes a range of connectivity options, such as HDMI, USB, and Ethernet, making it easy to connect to other devices.

Overall, the Hisense PX1-PRO is a high-quality projector that offers a range of features and benefits. Its advanced technology and sleek design make it a great choice for anyone looking to enhance their viewing experience.
